

## NIGHT EDITION

## SENATOR HIBBARD

Moved to Amend Adverse Report  
on Lowell Charter

Senator Hibbard today in the Massachusetts senate moved for an amendment of the adverse report on the Lowell charter, by the substitution of the bill. He was prevented from moving substitution direct because several amendments had been made to the original bill and it was necessary to have these printed so that a complete measure could be offered as a substitute for the adverse report.

In order to allow time for printing the bill as it will be acted upon by the senate, the whole matter was put over till Thursday afternoon, when it will be taken up in the senate and in all probability acted upon favorably.

## TELEPHONE RATES

Reduction Announced by the  
N. E. Telephone Co.

The earnest efforts of the joint special committee of the city council on the reduction of telephone rates have been successful, for today Chairman Arlin received a letter and a schedule from T. E. Parker, division commercial superintendent of the N. E. Telephone Co., announcing very material reductions in the case of both business concerns and residences. Some of the reductions range from 15 to 20 per cent. Mr. Parker's letter is as follows and is self-explanatory:

Lowell, Mass., June 6, 1911.  
Mr. Frank M. Dowling,  
Clerk of Committees, City of Lowell.

Dear Sir:—I herewith enclose a copy of the new "telephone rate and service schedule," which was discussed with your committee on May 31st, 1911. As stated at that time, the new schedule cannot go into effect in Lowell until substantial additions are made to the Lowell switchboard and outside plant.

The work of making these additions will be begun at once and pushed forward with all despatch.

Very truly yours,

T. E. Parker,  
Division Commercial Superintendent.  
Some few days ago the special committee went to Boston and held a long conference with E. K. Hall, one of the leading attorneys for the telephone company and Theodore E. Parker, division commercial superintendent. At the conclusion of the conference, the committee was informed that the N. E. Telephone Co. would do everything in its power to satisfy the committee, the city council, and the people of Lowell in general.

It will be seen in some cases the reduction is greater than really ex-

pected by the committee. For instance "one party flat" present business service \$50, is reduced to \$37 per year, and the "two party flat" \$60, is discontinued and you can now have a "one party flat" for \$55. Then, again, in residence "one party flat," the present rate \$42 is reduced to \$35, and "two party flat" residence from \$33 to \$27. The "six party flat" is dispensed with entirely and now you can have a "four party flat" for the same price, namely \$25. Other reductions follow in a similar line.

These reductions will go into effect just as soon as possible. It is expected that the new telephone building on Appleton street, will be fully equipped and ready for occupancy in about a year, but long before the year is over the announced rates, and new service will be in effect. It is the intention of the company to give Lowell the latest, the best and most perfect telephone service of any city in New England, and the company has certainly made a good start in that direction.

One of the innovations in the telephone service in this city will be in the two party flat, where the company proposes the introduction of a dividing ring which will have the effect of practically giving each party a private line. Several other improvements of a like nature will be introduced just as soon as possible. The table of reductions and readjustments is appended.

Business: One party flat \$55; two party flat, \$60; one party flat, measured, \$40 calls, \$42; one party flat measured, 720 calls (new) \$36; two party flat measured, 720 calls, \$38; one party coin box \$45.63; four party coin box, \$27.38 (new).

Residence:

One party flat, \$35; two party flat, \$37; four party flat (new), \$25; four party coin box, \$18.25 (new).

## ROGERS HALL SCHOOL

Commencement Exercises Held  
Today and Diplomas Awarded

The commencement exercises at the Rogers Hall school in Rogers street, were held this morning in the magnificent building opposite Fort Hill park. There was a very large attendance, the parents, relatives and friends of the students having turned out in large numbers.

This school is well known throughout the country and a proof of it is that of the 21 graduates of the 1911 class, there were some from the states of Ohio, New Jersey, New York, Georgia, Alabama, Michigan, Pennsylvania, Maine and Massachusetts.

The exercises began with prayer by Rev. Benjamin A. Wilcott of Lowell, followed by a very interesting address by Rev. Marion LeRoy Burton, D. D., president of Smith college, who spoke particularly on school work.

Carlotta Heath, Newark, N. J.  
Helen Whittie Gallup, Sandusky, O.  
Rachel Anna Jones, Billerica.  
Natalie Cameron Kemp, Maplewood, N. J.  
Anna Gayler Kuttner, New York City.  
Katherine Tracy L'Engle, Atlanta, Georgia.  
Thora Romney Lilley, Lowell.  
Esther May Loveman, Birmingham, Ala.  
Helen Munroe, Muskegon, Mich.  
Millicent Painter, Kittanning, Penn.  
Gwendolen Gray Perry, Rockland, Me.  
Evelyn Clark Pike, Lubec, Me.  
Mabelle Sabel, Montgomery, Ala.  
Hazel Sieger, Boston.  
Helen Madeline Smith, Maiden.  
Marjorie Wadleigh, Lowell.  
Miss Helen Munroe of Muskegon, Michigan, president of the senior class, in behalf of her classmates, presented the school a beautiful silver candelabra and a very neat divan for the drawing-room. The acceptance of the gifts was made by Mr. A. G. Poindar of this city in behalf of the directors of the institution. The exercises closed with benediction.

## THE CITY SOLICITOR

Decided Two Very Important  
Questions TodayThe Powers and Duties of the Committee on  
Appropriations. Defined—He Recommends  
That City Council Pass an Ordinance Designating Who is Head of the Fire Dept.

This was "opinion day" at the city solicitor's office, and he handed down two important opinions. In the first one he defines the powers and outlines the duties of the committee on appropriations. In the second opinion the solicitor says that the board of engineers has a legal existence, and that the mayor, and the city council are the body in which the power of appointment and confirmation is vested.

He, however, advises the city council to pass an ordinance specifically designating who the head of the department really is, and who has the specific right of appointment. The opinions follow:

**Duties of Appropriation Committee**  
Office of City Solicitor,  
Lowell, Mass., May 31, 1911.  
Board of Aldermen, Lowell, Mass.  
Gentlemen: I have your request for

an opinion as to the powers and duties of the committee on appropriations. Under the provisions of an ordinance passed in 1878, (repealing section 6 of chapter 1 of the Revised Ordinances) and another ordinance passed in 1906 amending the ordinance of 1878, the powers and duties specifically vested

Continued to last page.

## NATURALIZATION

Lowell Frozen Out by Court  
Officials

## All Other Counties Have Naturalization at Jury Waived Session of Superior Court—Cambridge Naturalization Cases Sent Across Bridge to Boston

The unprecedented mix-up over the first session of the court for naturalization held in Lowell yesterday has raised many questions, some serious and well worth consideration and some ridiculous.

For instance a well dressed man speaking broken English, but with a pronounced French dialect, said yesterday at court that it was all a political scheme to deprive him and others from becoming voters.

The Sun today has received several communications, all blaming Clerk Dillingham of the superior court who is absolutely blameless for what occurred.

A resident of ward two called at The Sun office this morning demanding an investigation of Clerk Dillingham's office. "He sized the crowd up and saw that they were all probable democrats and he went South with the papers," said the indignant citizen.

Another man saw a deep laid plot on the part of the county ring, while a third seeing certain democrats present placed the responsibility with them, stating that they were attempting to

stop an increase in the republican voting strength of Lowell.

**More Discrimination**

But seriously speaking, it looks like the old discrimination on the part of the lower end of the county, that is what the statements of the lawyers and others interested in naturalization matters aver is true.

In every county in the state except Middlesex, it is said, the first and last days of the jury waived sessions of court are devoted to naturalization. In Lawrence, only 10 miles away, naturalization sessions are held in this manner.

But in Middlesex, naturalization is being "shuffled" to use the vernacular, by the court authorities. If anybody from the lower end of the county wants naturalization he is sent over to Boston to the United States court, only a five cent fare from Cambridge, and is attended to and hence there is no need for a session in that city. In Lowell up to date, since 1906, applicants for naturalization have been compelled to leave their work and go to Boston with their witnesses, paying the expenses of both witnesses as well as their own.

Chief Justice Aiken has never appointed any sessions of naturalization for Lowell and Cambridge because the Middlesex county court authorities, all of whom are residents of the lower end of the county, never showed him any need for it. It took just one session yesterday to show Clerk Dillingham that Lowell needs a couple of sessions per year.

Matters would have gone along indefinitely as far as Lowell is concerned had it not been for Rep. Marchand's bill providing for special sessions in Lowell. Rep. Marchand is interested in naturalization among French Canadians and he knew that they could not well afford the expense of the trips to Boston, but he didn't know that the jury waived sessions of the superior court are supposed to take care of naturalization cases, and therefore he introduced his bill. When the matter became public property he was informed that there was no necessity for his bill as the matter was already provided for, and Judge Aiken appointed yesterday as the day for the court to open in Lowell. But the public now knows what a fizzle yesterday's session was as the clerk had only first papers and those who have held first papers for two years and desired the second papers to which by law they are entitled, were informed that they could not get them as the clerk had not received them from Washington and that their only hope of becoming citizens this year so as to vote in this year's elections was to go to Boston

in the old way and at the old expense and get out their papers.

A jury waived session of the superior court closed only last Friday and if Middlesex county was doing business as the other counties do it all these 200 or more men who went to the court house yesterday could have had their papers made out and become citizens in time to register at the opening of the sessions for registration.

It is the same old disregard of Lowell and Lowell interests, and will lead eventually to an agitation for a split of the county into a North and South Middlesex county. The registry of probate for Middlesex county is said to be the largest registry of its kind in the entire United States. A good share of its business comes from Lowell and vicinity. Yet there is not a Lowell man nor a Lowell woman among the army of employees of that office. Outside of a few deputy sheriffs, Lowell doesn't figure in Middlesex county patronage.

**POLO MATCH POSTPONED**  
NEW YORK, June 6.—The international polo match at Westbury was again postponed today on account of the continued northeast rain storm.

The match, which is the second for the cup will be played tomorrow if the weather permits.

Ani-sen  
THE BABY'S MEDICINE

Cures all troubles of the stomach, liver and bowels,—wind colic, constipation, diarrhoea; expels worms; relieves difficult teething; promotes natural sleep. No alcohol, no narcotics, no poisonous drugs. Try it.

Prepared by C. I. Hood Co., Lowell, Mass. Sold by all druggists at 25c a bottle.

## Your Level Best

Success calls for every ounce of energy a man has.

Hard work well directed, works wonders.

In office work, electric lighting helps a man to do his level best.

**LOWELL ELECTRIC LIGHT CORP.**

60 Central Street

## DIAMOND STOLEN

## Daring Robbery in a Local Jewelry Store

One of the most daring daylight robberies that has occurred in this city for years took place the other day when a man who appeared to be between 30 and 35 years old, entered the store of George H. Wood, wholesale and retail jeweler, at 137-139 Central street, and asked to be shown some diamond rings. While examining the stones he managed to substitute a ring with a stone valued at about \$25 for a clear white stone in a Tiffany setting which was worth \$500. The man made his escape and although the police have been notified, the latter have no clue to work upon and the man is still at large.

It is expected that the thief is a past master in the art of stealing diamonds and may be the same person who has successfully worked his game in Delaware and Pennsylvania of late. The loss of the stone was due to the carelessness of a young man who had been in the employ of Mr. Wood for about a year and who was not supposed to handle the diamonds.

The loss of the ring was not discovered until closing time at night when Adelbert H. Abbott, the diamond man, looked over the trays, as is his usual custom, and found the valuable stone missing.

It was about noon when a stout, good looking man entered the store and approaching the young man stated he had been referred to the store by a storekeeper on the other side of the street and asked to be shown some engagement rings. He was shown some plain rings but stated that he wanted to see some diamonds, and the clerk taking a tray which was on a revolving table in one of the windows placed it on the counter for the man's inspection.

The man picked out one ring after another and finally stated that he would go and see the girl and bring her over in order that she might make a selection.

It appears that while the clerk was showing the man the rings the former's attention was attracted to something which was happening in another part of the store and undoubtedly the slick one substituted the \$25 ring for the \$500 stone.

When Mr. Abbott went to place the trays in the safe at night he found the big stone missing and the following morning reported the loss to Mr. Wood with the result that an investigation was made and the young man in question admitted that he had shown the tray of rings to a strange person.

In conversation with a representative of The Sun this noon Mr. Wood stated that he had instructed his clerks not to handle any diamond rings, that he and Mr. Abbott were the only persons who had authority to do so.

## MARRIAGE INTENTIONS

Despite the inclement weather the June weddings are to proceed. Today's intentions are as follows:

Thomas Golden, 226 Broadway street, 25, section hand, to Mary Donohue, 32 Wamsott street, 23, at home.

Edel P. Farnham, 23 South Walker street, 26, clerk, to Emily B. Wesley, 23 Lane street, 24, bookkeeper.

Paul C. Exner, Mechanicville, N. Y., 36, barber, to Dorothea L. Vayo, Reckingham, Vt., 29, clerk.

Thomas McCarthy, 274 Fletcher street, 22, operative, to Annie Iglesias, table in one of the windows placed 19 Varnum street, 25, housework.

## WOMEN'S WORK

In Behalf of Charity  
Discussed

BOSTON, June 6.—The field and work of the women's auxiliaries furnished the topic for discussion at the forenoon session today, the third day of the national convention of the Society of Saint Vincent de Paul, held at the work of the women's auxiliaries of the great charitable organization, were read by Robert H. Rogers, president of the particular council of Baltimore, and by Dr. Joseph B. Lyons, of the particular council of Boston.

Following the presentation of the papers, the meeting was thrown open for general discussion, the questions of the better guilds, nurseries, settlement houses, hygiene of the home, protection of girls, and economic well-being being informally considered by the delegates.

Important economic problems were discussed as sub-topics. The varied views of the delegates were brought out on the questions of a living wage, women as supplementary wage earners.

## CLEAR BABY'S SKIN

In selecting a toilet powder for baby's use, do not make the mistake of favoring the prettiest box or the sweetest perfume. Physicians say that highly perfumed talcums should never be used on babies for they are sure to irritate the skin. Comfort Powder contains only soothing and healing antiseptic ingredients, and it absolutely prevents all chafing and irritation. It also cures rashes and clears the skin beautifully. Only Comfort Powder is good enough for your baby. See that R. S. Sykes' signature is on the box you buy.

ers, the relation between income and expenditure, family recreation, and social welfare and moral and sanitary conditions in the tenement house.

In discussing the subject of women and their relation to the work of the society, Dr. Lyons said:

"Nothing to my mind seems more distressing at the present time than the work of some of our modern social service workers, who in many cases, carried away with a false enthusiasm in their work, think that nothing but the clearly conditions in the tenement house, the separation of parents and offspring, in other words, the breaking up of the home."

"We do not want visitors of that type to be identified with the work of the society and fortunately we do not have them. What we want are visitors who will spare no effort for the preservation of the home."

"Unhappily are the conditions in the home lives of the poor where the work of the faithful Vincentian steps and where he is all too glad to call upon the kind hearted woman to take up the work where he must stop, and carry it to completion."

Mr. Rogers, in discussing the topic, said:

"Unfortunately for us, the words 'almsgiving' and 'charity' are regarded by many as exact synonyms and when this thought is translated into facts we find in turn in nearly every case that work in the homes and material aid are also regarded as exact synonyms. The problem of the dependent family is not a single one and work in the home."

"Our work in the future must be along different lines and will embrace lines of activity in which the broad-minded intelligent Catholic woman and not the man must be the guiding spirit. Every large city is full of work which you conference men do not touch."

"The work of the future will give to

the wife and the mother a knowledge of foods and their values, a knowledge of cleanliness and order and ventilation, a knowledge of the care and training of children, a knowledge of all the diseases of children which may handicap them in the future. It will give to the children a knowledge of God, of their religion, and of their social and civic duties; it will teach the mutual dependence, one upon the other and will implant in our lives and in the lives of the poor a true conception of the brotherhood of man and the fatherhood of God."

## JAIL SENTENCE

## For Minister Gully of Libel

BOSTON, June 6.—The Rev. Eben Payless, who, with George H. Pratt of Newton and the Somerville Sun Publishing Co., was convicted in February, 1910, of having criminally libeled John M. Woods of Somerville while he was mayor, was sentenced yesterday to three months in the Middlesex county house of correction by Judge Barry of the superior criminal court.

Payless furnished information to the Sun on which it based an attack on Mayor Woods. Following his conviction he was fined \$250. His exception was denied, but a stay of execution was granted to give him opportunity to pay the fine. This period expired yesterday. Dist. Atty. Higgins offered the defendant another week in which to get the money, but he said that he would be unable to secure it and was ready for sentence.

After serving the sentence he will be permitted to take the poor debtor's oath and be released.

Pratt, publisher of the paper, and the Sun company were fined \$500 each.

## THE FRATERNITIES

GEORGE A. WILLEY

## Oberlin Lodge, I. O. O. F. --- Its History and Its Officers

Next in the fraternal series of articles started with Canton Pawtucket, Patricians Militant, is Oberlin lodge, I. O. O. F. This lodge was instituted November 1, 1849, and is the oldest in Lowell. The following is the list of members who saw its inception:

Abel Rolfe, George Robbins, John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

The noble grand was followed by: John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

John M. Ladd, George H. Pratt, John G. Moore, David I. Sweet, John G. Moore, David I. Sweet.

G. W. Adams, Amos Kendall, John Patch, Geo. A. Willey, John Storr, A. N. Hall, Carl Noyes, G. W. Bonnevillie, W. H. Blower, E. Peigson, Sr., E. S. Soule, B. H. Durkin, E. A. Welch, Vernon Simonson, C. W. Abbot, W. A. Porter.

The charter was granted at the request of Abel Rolfe, F. M. Kittredge, Anson Huntington, John O. M. Ladd, and James M. Stone.

The lodge met first in the attic over the library of the Middlesex Mechanics association on Dutton street; secondly, over Adams' furniture department, in Wyman's Exchange, corner Central and Merrimack streets; thirdly, on Merrimack opposite John street; thereafter, in Odd Fellows hall, Merrimack street, opposite Clark street, and finally Odd Fellows hall on Middlesex street.

S. N. Wood is the oldest living member; he was right supporter to N. G. A. B. Favour, with J. G. Peabody, Sam Converse, Sid Davis and Brothers Page and Rice. They made up a "neighborhood bunch" who had many a pleasant walk home together after lodge meetings.

Ex-Mayor Peabody, Ex-Mayor Jewett, Ex-Mayor Richardson, and Ex-Mayor Jonathan P. Folson were all members.

A. B. Plimpton was both recording and financial secretary after he passed through the chairs.

David Carr joined when Benj. Patch was N. G., and served as warden when A. C. Stone was N. G., during which term John C. McIntosh was admitted.

H. W. Linker, senior deacon at the first Baptist church, joined when J. B. Currier was N. G.

Solon S. Robie was an engineer on the Salem and Lowell R. R. and he thought as much of his engine "Robie" as some boys do of their sweethearts.

Joe Wright was a grand good brother, a friend to every brother who was in any sort of trouble, and was employed at the Custom House in Boston.

C. W. Abbott joined the army after joining the lodge, and went out west "fighting the Indians."

A. P. Lake was employed in the "Vox Populi" office when it was located near Tower's corner.

Charles E. Farrington is a pillar of strength in the lodge, a trustee for many years, faithful to his trust, a reliable companion, counselor and friend. He has been in the employ of the Hamilton Manufacturing company ever since John T. Billings kept Charles Howard's drug store.

Joel Knapp was in the nut and bolt department of the Lowell Machine shop.

D. S. Field worked for Amasa Pratt, and built a house on Westford street, near that of Brother Davis.

George B. Farnham is now in Cambridge, under the care of the lodge in that city.

A. C. Stone was for a long time financial secretary and many a brother has specimens of his penmanship.

E. L. Davis withdrew to start a new lodge in Boston. A. G. Sawtell is the well-known janitor of Highland hall. Benj. Hodgman is recuperating at West Chelmsford. Benj. Patch has resided in Buffalo for some years.

M. C. Crockett is "way down yonder in Nova Scotia." Charles Stackpole is assistant engineer, L. F. D. G. D. Brown is proprietor of a well known drug store, South Boston.

E. G. Worcester may be found at Lytle's, Central street.

E. L. Gles is in London, Eng. George A. Hood is employed at Kittson's machine shop. W. A. Markee is employed on the Hamilton. George Nash is at the stove department, Gas Light Co. H. J. Conant at the agent's office.

## True Economy in Shoe Buying

Regal Shoe quality is famous. The greatest success that the shoe business has known is built on it. But in Regals you get this superb quality at a reasonable price because

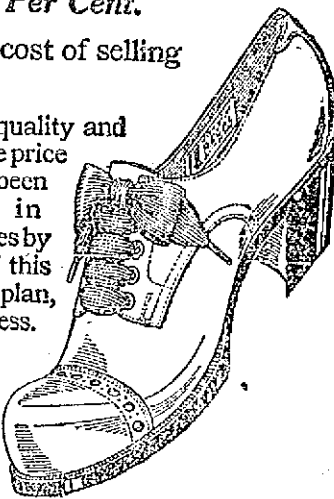

Regal Shoes are Sold Direct from Factory to Wearer at Cost of Making Plus Five Per Cent.

and the low Regal cost of selling and delivery.

High quality and reasonable price have thus been wedded in Regal Shoes by means of this new Regal plan, unique in the shoe business.

Regal prices range from \$335 to \$585

The above seal stamped on the soles of Regal Shoes is your guarantee that you are getting the full, famous Regal quality at the lowest price for which such quality can be secured.

REGAL SHOES FOR MEN  
BON MARCHE

B. & M. depl. John R. Peacock is an overseer on the Lawrence.

W. F. Stewart, at the old Pevey Knitting mill, manufactures the "Society Food Package" under letters patent.

A. N. Hall is town clerk of Dunstable, and as the moderator in town meeting has kept the town quiet and orderly for many years past.

Carl Noyes "dies by night" in the police patrol; watch out!

G. W. Bonnevillie "extracts" without pain. Walk in!

John W. Kilpatrick has a valuable patent on mill machinery. We are happy to state that he is rapidly recovering from his recent illness, and will soon be about again.

Vernon Simonson is on the medical staff of the state institution at Tewksbury.

George A. Willey is supervisor of elevators and lubrication in the Appleton cloth room. He is one of the most active and successful workers for the advancement of Oberlin lodge.

Dr. George E. Plimpton withdrew from the large to form Veritas lodge, and afterward from that to form the lodge now known as Highland Veritas. He afterward joined Wampanoag encampment, and withdrew to form Lowell encampment.

F. M. Kittredge was the first noble grand, and the other officers were given to the four other brothers who applied for the charter.

The present officers are as follows: Noble grand, George A. Willey. Vice grand, Walter Merrill. Recording secretary, Edw. A. Des Fosses.

Financial secretary, David B. George. Treasurer, Emory S. Soule. Warden, Ward A. Coburn.

Conductor, Wm. F. Stewart. R. S. N. G., Amos Kendall. L. S. N. G., Arthur N. Hall. R. S. V. G., Grant S. Fletcher. L. S. V. G., Herbert C. Sweetser.

R. S. S., George Des Forges. L. S. S., Wm. A. Brooks. Inside guard, Wilfred B. Maynard. Outside guard, Charles Rosander.

REAL ESTATE MEN  
HAVE GONE ON A TRIP TO MONTREAL

BOSTON, June 6.—A large delegation from the Massachusetts Real Estate exchange left today for Montreal to inspect the waterfront and dock system of that city. The party will be

joined later at Montreal by Governor Ross and Mayor Fitzgerald. On the way up to Canada, stops will be made at the principal cities. A delegation of Montreal business men will meet the visitors at St. John, Que. There were nearly 200 in the party. They planned to reach Montreal at 6.30 tonight.

## DIVORCE CASES

Dist. Atty. Pelletier to Prosecute

BOSTON, June 6.—Dist. Atty. Pelletier intends to prosecute offenders in divorce cases where statutory charges were sustained at the trial of actions.

Nine cases were referred to him yesterday at the instance of Judge Hitchcock of the superior court, who presided at the last divorce session.

The entire testimony relating to the charges was written out by the court stenographer and Clerk Campbell sent the transcript of the testimony to the prosecuting attorney.

This is the first batch of cases sent to the prosecuting attorney since the recent act of the legislature requiring the judge presiding in the divorce session to have a transcript of the testimony in any cases granted on a statutory ground transferred to the district attorney for prosecution of the parties concerned.

Once in a while a flagrant violation of law was referred by a judge to the district attorney, but an indictment was found only rarely.

The result of prosecution of the cases will be awaited with interest by those who have been prominent in the agitation over the so-called divorce evil at which the new law, drafted by Frederick W. Mansfield, attorney for the American Federation of Labor, was aimed.

It is expected that a vigorous prosecution of statutory offenses in divorce cases will tend to prevent collusion in divorce matters, since that ground had been relied upon in many instances in uncontested cases.

Mr. Pelletier may be obliged to summon a special sitting of the grand jury in view of the number of witnesses whose names have been submitted to him.

## Children's Hair Troubles

Much harm results from washing a child's head with common soaps and shampoos, as most of them contain too much alkali.

This makes the scalp rough and dry, and often leads to a diseased condition, which causes the hair to fall out. A safe thing to use is a shampoo made of pure Refined Creamy Soap, White of Eggs, Coconut Oil, Glycerin and Salicylic Acid. Birt's Head Wash is made of these ingredients. It removes the dirt and disease germs that settle in the hair and on the scalp, and makes the hair vigorous and glossy.

Drug and department stores sell it in hygienic tubes at 25c.

Sent by mail on receipt of price by the Omega Chemical Co., New York.

## A.G. POLLARD CO.

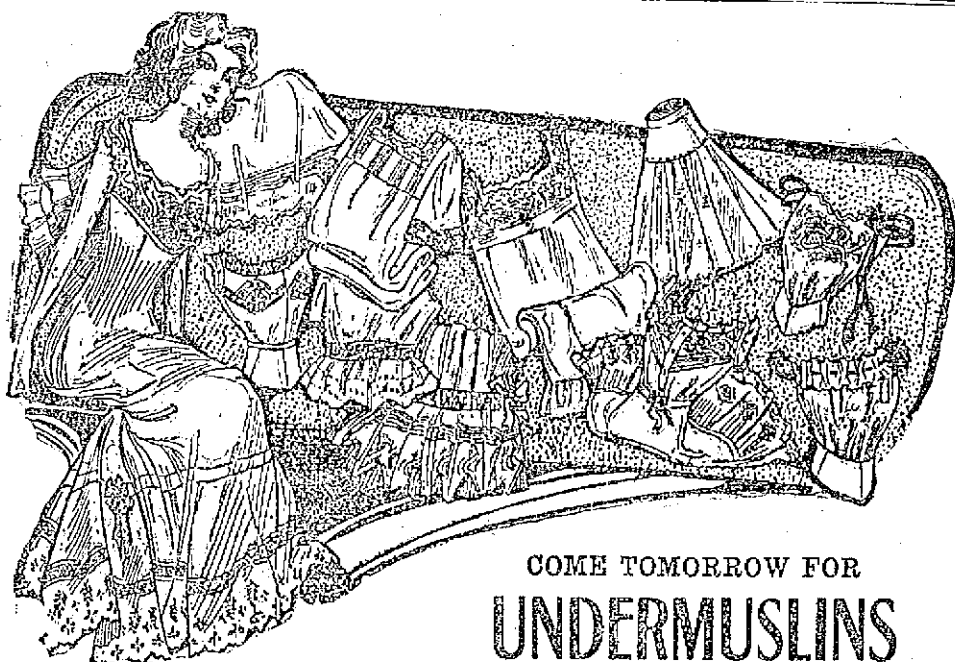

THE STORE FOR THRIFTY PEOPLE

## This is Nemo Week

NEMO Corsets are being especially brought to your attention this week. Miss Delaney, the expert fitter from the factory, is here to help in the selection and give the ladies of Lowell and vicinity her advice as to the best suited styles.

200 dozen Children's Hose, black and tan, fine and heavy ribbed, double knee and heel, full seamless, regular 12 1/2c value ..... At 9c a Pair, 3 Pairs for 25c

# PUBLIC BATHS

## Wanted on the Commons and the Canals

### Alderman Barrett and Councilman Coughlin Advocate Them — Judge Pickman Strongly Favored the Proposition

Alderman Barrett wants public bath houses on the canals.

Councilman Coughlin wants bath houses on the commons.

Each presented his proposition at a conference of the park commission and the special joint committee on public baths at city hall last evening.

The found in Judge Pickman a strong advocate of public baths and he assured the members of the committee that he would do all in his power to get public bath houses in this city.

The public bath was run up against the Locks & Canals company on both of the propositions, for the company appears to have a hold on the commons as well as over the canals.

During the meeting Alderman Barrett did not miss the opportunity to say his respects to the park board for giving all its attention to Fort Hill park and neglecting the commons.

The conference opened at 8 o'clock, and Mr. Coughlin at once presented his South common plan.

Judge Pickman said that the land constituting the common was covered with the understanding that no building should ever be erected on that land. He believed the same restrictions obtained with respect to the North common.

He cited the bill in equity brought against the city to prevent the erection of certain structures on the South common on the night before and of July 4th.

There was a hearing before Judge

Fessenden and the right was granted for those nights.

Judge Pickman said there would be danger in erecting a building there for permanent use, because the grantors might object and the land would be lost to the city. A petition might be entered in the legislature, asking permission to erect a bath house. It is very late, at the present time, he believed, to introduce new business.

"I feel that it is a mighty good project," Judge Pickman said. "It is a disgrace to the city that with so much water running through it, we have no public bath houses."

Alderman Barrett then suggested that bath houses could be built over the canals at a minimum cost, provided the Locks & Canals company remove their restrictions on the canals.

Judge Pickman suggested the danger of typhoid if the water was not filtered, but said that he would abide by the decision of the physicians.

Alderman Barrett was of the opinion that Lowell has the best facilities for bathing of any city in this section of the country. "But," he said, "we have too much state interference in this city, let the state remain out and mind its own business."

Councilman Coughlin thought that an equipped bath house on the south common would cost between \$4500 and \$5000.

Alderman Barrett inquired the cost of erecting and equipping a gymnasium in Boston. He said that the burden of running bath houses and gymnasia should properly be wholly supported

(From the Fall River Globe.)  
Dr. Wm. E. Barker Makes a Remarkable Statement After Traveling from the Atlantic to the Pacific.

As he secured some of the most notable endorsements to his theory, he does not hesitate in saying that he will positively guarantee bloodless cure of the bladder or any kidney or bladder trouble, no matter how long you have been suffering. Ninety-seven per cent of the entire population of the United States is afflicted with kidney or bladder trouble. In the last seven years bloodless has cured 86 per cent of the cases that have been treated with it.

Hundreds of cases of hemorrhage of the bladder have been cured after treatment in some of the leading hospitals has failed to even relieve the patient. We are therefore confident that our theory of treating these cases with bloodless is the only possible manner in which such a large percentage of cases can be cured, that we do not hesitate to guarantee the efficiency of bloodless.

Mr. Hanson, the business manager of the Postal Telegraph and Cable Co. of Portland, Maine, had a stone in the bladder removed with six and one-half bottles of bloodless after being told by all of the leading physicians in his vicinity that the only way it could possibly be removed was by an operation. We stand ready to furnish positive proof of the above statement to any one doubting the truth of the same.

More than five million bottles of bloodless were sold in America last year. Can there be any greater evidence of merit than this unparalleled sale of a scientific product. No other product has ever met with such astounding sales in so short a period, and from a conservative estimate the sales this year will reach ten million bottles. 2880 bottles were sold in a single day in Cleveland, Ohio; 2160 bottles were sold in Rochester, N. Y., at the first day's introductory sale, and 1400 bottles in Paterson, N. J., in one day. No scientific treatment has ever attained such success in America. We are now supplying druggists with bloodless, for the convenience of those wishing to convince themselves of its merits. If your druggist does not have it, The Bloodless Laboratories, Boston, Mass., will supply you with a six weeks' treatment (six bottles) for \$2.50. Or a bottle, trial sample and booklet, free.

Falls & Burlington, Brunel's Pharmacy, Noonan's Pharmacy, John T. Sparks & Co., N. Pelges.

**NOT GUILTY**  
LOWELL MAN DISCHARGED IN COURT AT SALEM

George L. Uman of this city, who was arrested four weeks ago for conviction with a horse case, appeared before the superior court, Salem, yesterday and at the conclusion of the hearing of the case was discharged owing to lack of evidence to convict.

At the time Uman was arrested it was thought that he was connected with a horse stealing case, but he explained that a man named Spaulding owed him \$70 and gave him the horse in settlement of the debt. While Uman was trying to sell the horse he was placed under arrest on suspicion of having stolen it.

When the case was called in Salem yesterday there was no evidence to show that he had stolen it, and the court found him not guilty and ordered the complaint dismissed.

## FOR NON SUPPORT \$8000 DAMAGE

### Earnings of Business to Go to Families

The uniform desertion act recently passed by the legislature, which will go into effect on the 15th day of June, contains a provision whereby by an order of the court, the master of a house of correction is required to pay a sum equal to 50 cents a day for each day's hard labor of a person confined under the provisions of the act for non-support or desertion of wife and minor children, or of minor children by either father or mother. The money is to be paid to the wife or the person or institution having custody of minor children.

The new law contains many of the provisions now included in the statutes dealing with non-support and desertion cases, for the provision for payment from the earnings of the convicted person while working at the county institution is new. In the past many persons have been convicted for non-support but have had their freedom in order to be able to provide for the support of the complainant, but soon it will be possible to send the defendant to jail to do the work.

Section 8 of the uniform desertion act follows: "It shall be the duty of the superintendent, master or keeper as the case may be, of any reformatory or penal institution in which any person is confined by virtue of a sentence imposed under the provisions of this act, providing that the court imposing such sentence finds the wife, child or children, as the case may be, of such person to be in destitute or needy circumstances, and so order to pay over to the probation officer, at the end of each week a sum equal to 50 cents for each day's hard labor performed by the person so confined. In making the payment the superintendent, master or keeper, as the case may be, in charge of the reformatory or penal institution, shall state the name of the person for whose labor the payment is made, and the probation officer shall pay over such sum promptly to the wife, or to the guardian or custodian of the minor child or children of the person so confined, or to the city, town, corporation or society supporting the wife or minor child or children at the time when the sentence was imposed, or to the treasurer of the commonwealth for the use of the state board of charity when the complaint was for neglect to provide for the support of the minor child or of minor children who have been committed to the custody of said board."

### Caused by Fire at Fort Fairfield, Me.

FORT FAIRFIELD, Me., June 6.—The town had a scare yesterday afternoon, when fire broke out in the heart of the business section and threatened to spread in every direction. At one time half a dozen buildings were on fire.

The total loss is estimated at \$8000, about half insured. The fire originated in the sales store of Miles D. Dorsey on Main street, which was in a blaze when discovered and spread so rapidly that only part of the stock of carriages, robes and harnesses could be saved. The household goods of John Crook on the second floor was also destroyed.

The fire spread to the large frame building owned and occupied by Kelley Ossie as a restaurant, and sparks caught on the lock-up, the hose house and the Reformed Baptist church.

The firemen were obliged to divide their force, but were finally able to stop the spread of the flames, though the restaurant is nearly a total loss. Mr. Dorsey's loss is estimated at \$3500, with insurance of \$1500. The loss on the Ossie building and contents is \$3500, partially insured.

**INDESTRUCTO and TOLU-RIST TRUNKS**

## GOVERNOR FOSS

### Announces Candidacy for Reelection

BOSTON, June 6.—Governor Foss, at the 273d anniversary of the Ancient and Honorable Artillery company last night in Faneuil hall, practically declared he would be the democratic candidate for governor of the commonwealth at the fall election.

The state's chief executive was responding to the toast to the Commonwealth of Massachusetts. Said he: "When Col. Benton, the newly elected captain of the Ancients, appeared on Boston common today to receive at my hand the insignias of his rank, by virtue of the vote of his comrades, he said:

"I hope to relinquish this honor to the next governor of Massachusetts," he should have said: "I hope to relinquish this honor to Governor Foss."

This emphatic avowal of the governor was met with the wildest applause by the 500 members of the Ancients and time and time again he was cheered as the next executive of the commonwealth.

admission FREE. CORDIALLY INVITED to be a

HON. JOHN J. PICKMAN  
Who Presided

by the city. He believed a bath house could be constructed on the South common for \$25,000.

Councilman Coughlin suggested that the water in the canals would be shut off on Saturday afternoons and Sundays when the people need it most.

Alderman Barrett called attention to the fact that 12 per cent of the department's appropriations last year was spent in Fort Hill park.

Mr. Hall said that there was a special appropriation for Fort Hill park. In many other years the expenditure there was very slight.

Mr. Drury said that the board had been trying for years to get an appropriation to put the pond on the South common in proper shape. The money has never been forthcoming.

"I believe in beauty spots, they are great," said Alderman Barrett. "But the basic principle of our duty places is to give people a chance to get some fresh air. After that, then let us have the beauty."

"We tried to get money for special policing of the commons to help out the playground movement," said Judge Pickman. "But the police department isn't going to spend its money to help out our department. We want to do many things, but we can't do it."

Mr. Coughlin suggested meeting Hiram E. Mills of the Locks and Canals corporation, the trustees of the common lands, about the removal of restrictions, and also about the securing of sites over the canals for bath houses. Judge Pickman believed this an excellent idea.

Adjourned at 8:40.

## BILLERICA

In all probability the selectmen of the town of Billerica will call a special town meeting in the near future for the purpose of ascertaining what action the citizens of the town desire to take on the proposed water extensions on the Bedford and Boston roads.

An article relative to these extensions was acted upon at the annual town meeting in April and it was then voted to place it in the hands of the water commissioners, who were instructed to report back in 60 days. Commissioners were advised by counsel that it would be necessary to have a bill passed through the legislature before the extensions could be finally made. This is now being done and it is expected that it will be passed this week.

# HON. GEORGE RUNELS

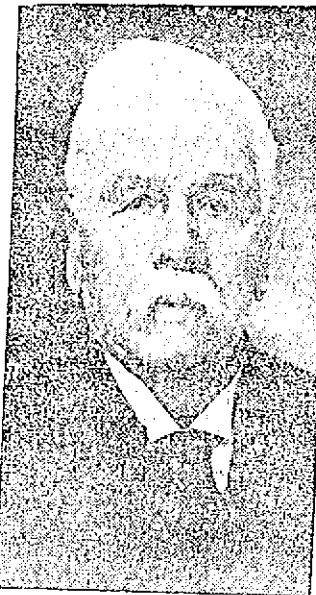

## Former Mayor of Lowell Passed Away Yesterday Afternoon

Hon. George Runels, mayor of Lowell in 1882, died yesterday afternoon at his home, 10 Tremont street, at the advanced age of 88 years and months. He had been ill for some time and his death was not unexpected. Some three months ago, Mr. Runels suffered a severe attack of grip which left him lame. He was attended by Dr. E. H. Parker and Dr. John P. Sutherland, a Boston specialist.

Canton, Singapore and Calcutta, shipping from the latter place to Boston. He arrived here in 1846 and entered the stone cutting business. In the fall of 1849 he had the good fortune to meet and marry a young woman, and went to California, returning the following year. He next turned his attention to farming for four years, after which he engaged in active business in this city until 1875, when he retired from business life.

In 1862 he was a member of the city council, and in 1864 and 1873 he was a member of the board of aldermen. He was a lifelong republican, and was elected mayor in 1882.

Mr. Runels is survived by a wife and two sons, Charles and Henry Runels, both of this city.

THE LATE GEORGE RUNELS

## LARCENY CHARGE

Lawrence Man Held as Horse Thief

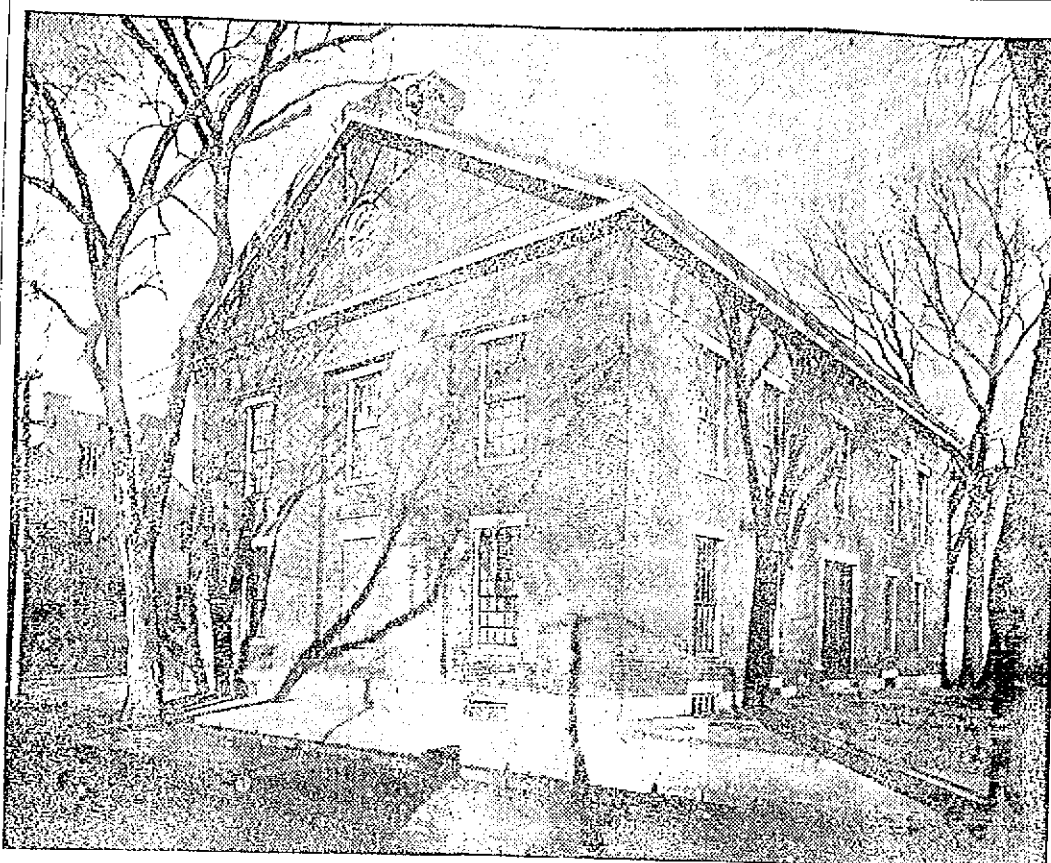

PROVIDENCE, June 6.—Charged with horse stealing, Lewis F. Conlon, said to be the son of a police officer, was arrested in Woonsocket last night and brought to this city for examination. The arrest was made at the request of the authorities of Lawrence, Mass., who have located eight horses which Conlon is charged with having stolen, but as there have been numerous horse thefts in Providence, Pawtucket, Woonsocket and Cranston recently the local officers refused to the present to turn him over to the Massachusetts officers. Today officers from these four cities, with several horse owners whose animals are missing, will visit Lawrence and attempt to identify the animals and if they are successful Conlon will be placed on trial here.

The man held is 28 years of age and is alleged to have gone under the names of Lewis Conlon and Arthur Roberts, as well as Lewis F. Conlon, which is said to be his right name. The officers charge that he has stolen animals in several cities in Massachusetts and Rhode Island.

## AT SACRED HEART

CHANGE IN THE HOURS OF THE MASSES

It has been announced at the Sacred Heart church that the hours for the Sunday masses hereafter will be 6:30, 9 and 10:30 a. m. The high mass being at the last named hour and the children's mass will be at 8:30 a. m. At the 7:30 o'clock mass next Sunday the members of the Holy Name society will receive communion in a body. The closing exercises for the Sacred Heart school will be held June 18 for the junior classes and June 25 for the seniors.

OLD MANN SCHOOL BUILDING

## INDUSTRIAL SCHOOL

### Lowell Has Three Empty Buildings That Can be Used

The Scope of School Not Yet Settled, But Textile Work, Shoe Making, Machine Shop and Wood Work Will Undoubtedly be Included

The school board having voted to establish an industrial school in this city it would now be in order to settle upon what line of work will be undertaken. The policy of the state board of education is to assist those already in the field.

occupied in various lines of industry rather than to teach trades to parties who are unemployed.

Neither the school committee nor Supt. Whitcomb claim yet say just what the scope of the work will be. This will probably be settled at a conference between the school board and officials of the state board of education. This is a textile city and there will be undoubtedly an effort to assist the younger element of the textile workers to advance along the lines already taken up. We have also many shoe shops here and there may be an opportunity for some of the shoe workers to learn what they cannot learn in the factories. Then there will undoubtedly be metal work and wood work, but how these lines will be carried out, of course it is difficult to say.

There will be no attempt to procure a new building at the outset although such a building would be essential later on. The school board has at the present time three buildings unoccupied in which different lines of work could be advantageously carried on. These are the old Mann school building on Broadway, the old Moody, corner of East Merrimack and High streets, and the old Barlett on Clark street.

An effort will be made to arrange with some of the mills or perhaps with all of them to allow minors to work part time and attend the school the other part. The part time plan is in operation in some cities and is enabling the young people to advance rapidly in learning whatever trade they have taken up. The work of the industrial school in this or any other city must develop gradually under skilful direction in order to be of the greatest benefit to the city.

## WRIGHT WRONG

Lowell First Baseman Had an Off Day

LYNN, June 5.—For the first time this season Wright was wrong in the Lowell-Lynn game. Wright was far from being right on 1st base and his misplays together with Harrington's great pitching were responsible for the one-sided score. It's the second time this season that Harrington has put it all over the Bingham Bros. which is the best evidence that he is some pitcher. The score:

| LYNN          | ab | r | h  | po | a  | e |
|---------------|----|---|----|----|----|---|

First on balls—Off Harrington 4, on Yount 3. First on error—Lynn 2. Hit by pitcher—Boulles and Cooney. Struck out—By Harrington 6, by Yount 3. Wild pitch—Yount. Time—1h. 55m. Umpire—Stafford.

## DIAMOND NOTES

"They can talk all they want about Lowell, Lynn and Brockton," said O'Brien of Fall River at Worcester yesterday, "but my team can beat them all, and we'll win the pennant this year. The fight will be between Worcester and Fall River. I may be in the second division now, but we haven't any pitchers for a long time. We've got five good ones and Little John is smoking again."

Arthur Lavigne, formerly behind the bat with the Worcester and Brockton teams, has signed with Lowell and will report at once. Lavigne's ability as a catcher is unquestioned. He secured his release from Brockton on account of discord with some of the other members and Lowell snapped him up at once.

Catcher Spring has two broken fingers on his right hand and it will be some time before he is able to work.

Joe Doyle has been heard from in Flint, Mich., the home of the Buick machines, where he is playing the game of his life. Flint is in the Southern Michigan league, which includes Kalamazoo, Lansing, Adrian, Battle Creek, Flint, Bay City, Jackson, Saginaw.

Jim Warner, the old Lowell pitcher, is on the mound for Adrian where he stood fifth in the league pitcher's standing last season with nineteen games won and eight lost.

Terrible Terry is due today, weather permitting.

Wait till the Bingham Bros. get a crack at Worcester's new pitcher from the Pie Belt. They'll play "Ring-a-Ring-a-Rose" with him all right, even if Harry Lord and the hum paper did recommend him.

## MEN WHO WILL REVISE COURT RULES TO AVOID LEGAL DELAYS

WASHINGTON, June 6.—Chief Justice White of the United States supreme court has announced that he has appointed a committee to revise the rules of equity practice in the United States courts. The committee is composed of himself and Justices Lurton and Van Devanter, the only members of the supreme court who have had experience on the bench of the United States circuit court. Justice Lurton since 1893 and Justice Van Devanter since 1903. This move is the initial step in a great reform in federal court procedure, which has long been advocated by Justice White, who has often criticized the antiquated practice on the chancery side of these courts. The present rules were promulgated in 1842. They are adapted

in their entirety from the ancient rules of the high court of chancery of England and are cumbersome and complicated in the highest degree, lending themselves to delays and embarrassing litigation rather than expediting causes. The new rules will do away with many legal delays, following the recommendations made by President Taft in several addresses.

## BOARD OF TRADE SERVICES HELD LEO M. RAPAPORT

Annual Meeting This Evening Will Help Defend the Remains of Late E. A. Smith

The annual meeting of the Lowell board of trade will be held this evening at the rooms of the organization and a large attendance of members is expected, while many new members will be admitted.

This has been a year of unusual activity and results on the part of the board and the reports of the officers will be of a most encouraging nature. During the year several new shoe shops have got under way in Lowell, while the board took a most prominent part in the work of settling the Boston & Maine railroad to locate its shops in Haverhill. The order of business at the annual meeting will be as follows: Call to order by Chairman Harvey B. Greene; adoption of new members; report of the secretary for 1916; report of treasurer and auditor for 1916; reports of committees; election of officers for 1917; new business. Indisputably the new board will be a prominent topic of discussion at the meeting.

## WOMEN'S MISSION

AT ST. MARY'S CHURCH BROUGHT TO A CLOSE

The women's mission at St. Mary's church, Cambridge, came to a close Sunday afternoon with a large congregation present. The services were followed by a social session on "Heaven" by Rev. Fr. O'Leary, S. J., who is in charge of the mission. The women were closed with the benediction of the Most Blessed Sacrament, Rev. Fr. Walsh, pastor of the parish officiating.

The men's retreat opened Sunday at 7:30 o'clock. The case little church was packed to its doors, and the services were of the most inspiring kind. Rev. Fr. O'Leary, S. J., preached a strong sermon on the "Salvation of the Soul." The instruction was followed by benediction. Services will be held every night at 7:30 o'clock and every morning at 6 and 8 o'clock.

After solemn and imposing services, the remains of the late E. A. Smith were tenderly consigned to their last resting place in the Lowell cemetery yesterday afternoon.

The funeral services were held at the deceased's home, 84 Marlborough street, at a solemn ceremony, and were largely attended by relatives and friends of the deceased as well as by large delegations of fraternal and social organizations of which he was a member. At the opening of the services, the Monks of the Society of the Sacred Heart, made a beautiful solo of "Somewhere, Somewhere" by the choir. The choir was followed by prayers and a eulogy by Rev. Fr. O'Leary, S. J. The quartet then sang "Fading Home" and "Abide With Me."

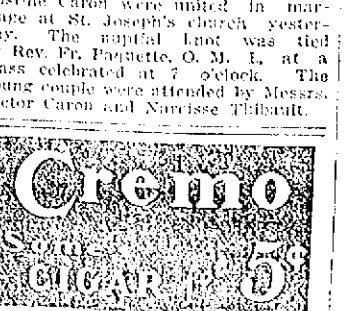

The following societies and clubs were represented at the funeral: Highland club, York club, William North Lodge, A. F. and A. M., Mt. Heron, Royal Arch chapter, Amherst council, Pillar of Community, No. 9, Highland Veritas lodge, and a delegation from the Middlesex Trust company.

Burial was in the Lowell cemetery. Funeral arrangements were in charge of Charles L. Knapp, Undertaker Geo. W. Healy.

## MATRIMONIAL

The marriage of Mr. Joseph Robitaille and Miss Marie Rondeau took place yesterday at St. Jean Baptiste church. The ceremony was performed at a nuptial mass celebrated at 7 o'clock by Rev. Fr. Watelle, O. M. I. The witnesses were Messrs. Trefle Rondeau and Willie Robitaille.

GAGNON-CARON  
Mr. Augustin Gagnon and Miss Augustine Caron were united in marriage at St. Joseph's church yesterday. The nuptial mass was said by Rev. Fr. Paquette, O. M. I., at a mass celebrated at 7 o'clock. The young couple were attended by Messrs. Victor Caron and Narcisse Thibault.

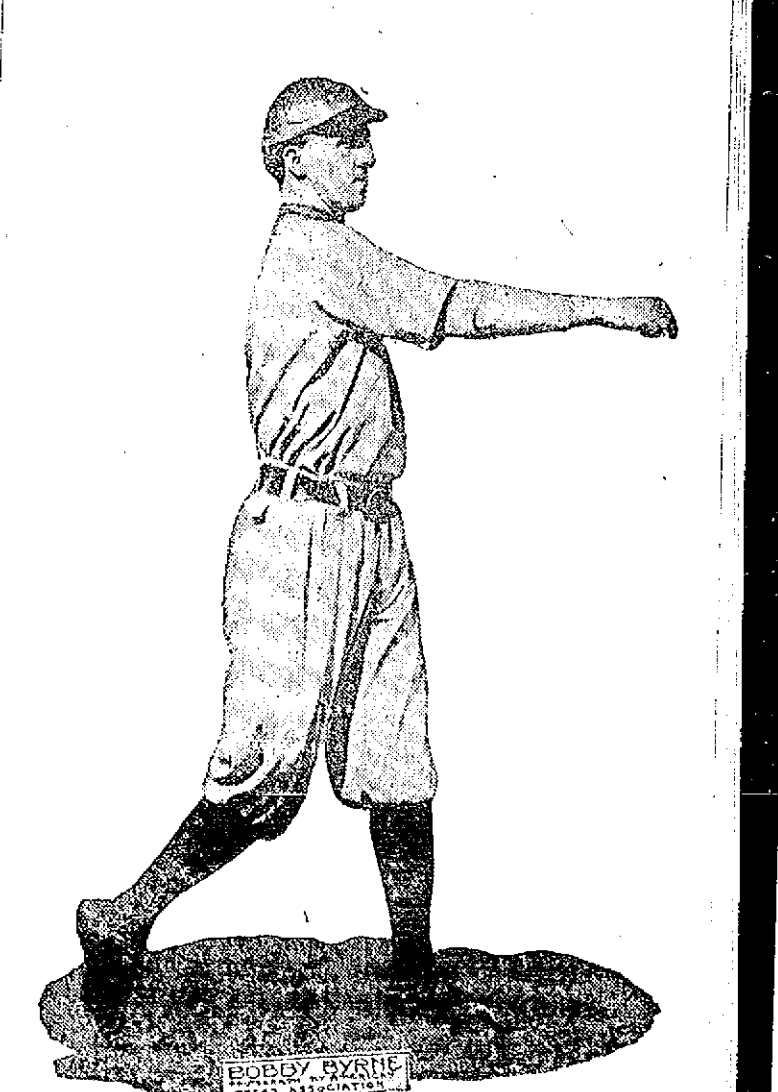

LEO M. RAPAPORT

Rapaport is one of the rising lawyers of the west. He it was who protested to congress against the manner in which the McNamara brothers were arrested by Detective William J. Burns and taken to California. Rapaport agrees with Samuel Compers that the action was one of "legal kidnapping."

LOS ANGELES, June 6.—Second to Clarence Darrow in the defense of the two McNamara brothers, charged with dynamiting the Los Angeles Times building will be Leo M. Rapaport, Mr.

## PIRATES' THIRD SACKER, WHO IS REGARDED KING OF 'EM ALL

PITTSBURGH, June 6.—Local baseball experts are now claiming that "Little Bobby" Byrne of the Pirates is the premier third baseman of the country. Bobby covers more ground, manages to get in his timely bunt, enables his team to win.

## JOHN DILLON HURT

JOHN DILLON, M. P.

## Irish Leader is in a Serious Condition

DUBLIN, June 6.—John Dillon, Nationalist member of parliament for East Mayo was dangerously injured about the head and neck in an automobile accident last night near Dundalk, 45 miles northwest of Dublin.

It was at first thought that Mr. Dillon was dying and a priest hastily summoned administered the last sacrament. He rallied, however, and was removed to Dundalk, where he now lies in a hospital in a serious condition.

The automobile dashed into a culvert and Mr. Dillon was thrown through the glass screen.

Although his condition is serious, Mr. Dillon's relatives have good hope of his recovery. They will not permit the removal of the patient from Dundalk for several days.

Mr. Dillon suffered a severe concussion of the spine, which deprived him temporarily of power over his limbs. He also suffered a severe cut in the forehead which required several stitches.

admitted that he had spoken to the young woman but said he was under the influence of liquor at the time and mistook her for a person whom he knew. The court ordered him to pay a fine of \$10.

## Felonious Assault

Wells P. Kelly was arraigned before Judge Hadley in police court this morning on complaints charging him with felonious assault on Annie Pine, a girl who had been stopping at his house. Through his counsel, J. Joseph Hennessy, pleas of not guilty were entered and the case was continued until tomorrow, the defendant being held under \$500 for his appearance at that time to answer the complaint.

## Drunk Offenders

Alexander Foucher was charged with being drunk and admitted his guilt. According to the arresting officer the man had been on a drunk for three weeks and inasmuch as Foucher had little or nothing to say in his own behalf he was sent to jail for ten days in order that he might sober up.

Patrick Casey, after being found guilty of drunkenness, was sentenced to two months in jail.

William McGuinness and George Gill, drunks, were fined \$5 each, two first offenders were fined \$2 each, and several simple drunks were released.

Patrick Curtin was sentenced to the state farm at Bridgewater.

## JOHNNY GALLANT

## PUT EGAN AWAY IN THE SIXTH ROUND

WOBURN, June 6.—Johnny Gallant of Chelsea beat Joe Egan of South Boston in the sixth round of a bout scheduled to go to 10 at the Woburn A. C. meeting in Yacum hall last night. It was a fast contest from the start, but in the sixth Gallant put a right to Egan's jaw and sent him down. Egan was slow in rising and Referee Martin Clougherty awarded the match to Gallant.

Mickey Brown of Malden was awarded the decision over Young Tompkins of South Boston in eight rounds. Young Sullivan of Somerville and Young Kenney of Wakefield boxed six rounds to a draw and Young Murray of Beverly beat Young Cronin of Woburn.

## TEAGUE'S BOUT

NEWPORT, R. I., June 6.—It was a real night with the Perry A. C. last night and the main event between Tommy Teague of the battleship Michigan and Abe, the newsboy, of New London, was Teague's in every particular. One of the preliminaries between Kid Lambert of Port Adams and Eddie Doyle of the naval training station was stopped in the first round because the men were not evenly matched.

## IN POLICE COURT

## The Docket Today Was Quite Brief

Charles Randlett of 16 Nichols street was charged with being drunk and Patrolman David Petrie who made the arrest testified that the defendant had been annoying a young woman for several nights. The girl was brought in to court and after being sworn testified that the man had followed her on two different occasions and last night approached her and made a remark which she resented. She reported the matter to the police with the result that Randlett was placed under arrest. Randlett

## WHAT I WENT THROUGH

## Before taking Lydia E. Pinkham's Vegetable Compound.

Natick, Mass.—"I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it had worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—MRS. NATHAN B. GREATON, 61 N. Main Street, Natick, Mass.

The Change of Life is the most critical period of a woman's existence. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

The testimonials which are constantly being published in these advertisements are guaranteed to be absolutely genuine.

## DARTMOUTH MEN

## Say That They Were Assaulted

HANOVER, N. H., June 6.—Charges of aggravated assault were filed here last night by three Dartmouth students against four Hanover men who will be arraigned in court. The students are H. C. Pond of Malden, Mass., T. W. Salmon of Woburn, Mass., and E. C. Castle of Quincy, Ill.

The students were on their way to Hanover early yesterday from the North, Vt. station and they claim the four men brutally attacked them with clubs near the bridge which connects the two towns.

The alleged assault it is said was due to a general dislike for the students. The Hanover men gave the names of Willard, Kibbie, Gibson and Keadall.

## THEATRE VOYONS

Today's feature comedy at the Theatre Voyons is "A Case of Deception" in which the leading actress, Miss Florence Lawrence, wears most charmingly a Harem gown. Playing with her in the comedy is Arthur Johnson one of the most popular picture men

and between them they make plenty of laughter. The dramatic feature, "Nell" is a strong and forceful drama of city life and in which a young man is set right in life through the efforts of a Salvation Army lassie. There are other hits on the program, notably "The Rose of St. Augustine" and a brace of finely rendered illustrated songs.—Adv.

## TREATY CHANGE

## Is Sought by Premier Laurier

LONDON, June 6.—At the imperial conference yesterday Sir Wilfrid Laurier, premier of Canada, gave notification of his intention to introduce a resolution with a view to obtaining assent for any dominion of the empire to withdraw from the operation of any treaty made by the government without impairing the treaty in respect to the rest of the empire.

A resolution for uniform navigation laws throughout the empire and the employment of British seamen in British ships was adopted.

## PROF. KIRK ACCEPTS

PROVIDENCE, R. I., June 6.—Prof. William Kirk, associate professor of social and political science at Brown university, has accepted the chair of economics and sociology at the University of Rochester and will enter business, try The Sun "Want" column.

upon his new duties on July 1 when he will also take up the work of general secretary of the United Charities of Rochester, which he accepted last March.

If you want help at home or in your business, try The Sun "Want" column.

# THE LOWELL SUN

JOHN H. HARRINGTON, Proprietor

SUN BUILDING, MERRIMACK SQUARE, LOWELL, MASS.

Member of the Associated Press

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1910 was

15,976

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotta, pressman, of The Sun, before me, January 2, 1911. J. JOSEPH HENNESSY, Notary Public.

North Billerica will soon be unable to take care of the large number of men to be employed there, but Lowell is close by with the most ample accommodation.

Every Sunday seems to bring its crop of auto accidents, some terrible in their fatal results. Can it be that the recent decision of the supreme court has made some drivers reckless?

Senator Lodge has seen a new light. He now announces that he will vote for the reciprocity bill. Speaker Walker's letter of remonstrance has probably helped to put the senator back on the right path.

The city council should lose no time in giving its decision on that matter of the contagious hospital site. If the members find that the site favored by the commission is not so desirable as the other, it will be necessary to rescind the vote by which the land was voted to the commission for hospital purposes and then to vote on the transfer of the other land.

## THE NATURALIZATION COURT

The large number of men who visited the court house yesterday for the purpose of getting out their first papers on naturalization shows how much a session of the court is needed in this city. As we have repeatedly stated it is an injustice to the residents of Lowell that the naturalization court does not hold sessions here more frequently. With a crowd of three or four hundred demanding their first papers, it can be easily seen that few will go to the trouble of taking their witnesses to Boston. The time has gone by when political committees can pay the expenses of witnesses and the fares to Boston, and unless the applicants are in dead earnest they will not take a day off to get two witnesses to accompany them to the court house even when the session is held in this city. Our legislators should see to it in the future that the naturalization court holds a reasonable number of sessions in this city. It is plain that two sessions in the year will not be nearly sufficient. There should be at least half a dozen in order to meet the demand for naturalization, as indicated by the large crowd at the court house yesterday.

## THE TOILERS ARE NOT IMMORAL

The case tried in the police court Saturday, although sensational and radiating bad moral conditions does not reflect at all upon the city of Lowell. It is highly creditable to the Lowell police that a case of this kind in which a young girl was lured from Haverhill by Haverhill parties was detected here within a very short time after the offenders took up their lodgings at a place where they supposed they could keep the young girl in custody without detection. The promptitude with which these parties were brought into court should be a warning to others that law breakers had better keep away from Lowell. They may be tolerated elsewhere, but certainly not here. Lowell is a clean city, in which no such iniquity as was attempted in this case can long escape the notice of the police. Although a mill city, Lowell will compare favorably with any other in the state in regard to its moral standards, and the people who work in the mills, in point of morals will stand comparison with any other class of toilers. The statement may be doubted by those who do not know the conditions and who judge of all from a few isolated cases. The immorality of a city is not found among its toilers.

## THE INDUSTRIAL SCHOOL

The school board should decide as soon as possible upon what lines of work will be taken up by the industrial school to be opened in the fall. The problem is one that will require careful study, but the state board furnishes valuable counsel and assistance. It has secured the ablest men in the country to assist in establishing and directing such schools and school boards can safely rely upon their advice.

The board will probably recommend a line of textile work by which young people will have an opportunity to advance. It is true we have a textile school with evening classes that provide instruction for mill operatives, but the industrial school would start lower and lead beginners onward step by step. The same policy will probably be followed in other lines such as the work of the shoe factory, the machine shop and some of the building trades. This school will open up new opportunities for boys on leaving the grammar school. If they choose to enter the industrial school instead of the high school the majority will probably derive more benefit from the course, provided they do not mean to go to college or enter a profession.

## NO LABOR TROUBLES

It is gratifying to find that the local contractors and carpenters have set out to settle their differences. The carpenters have been granted a 14-hour week, and will allow the demand for an increase of wages to remain in abeyance for the present. Hence the contractors can go ahead without any fear of a strike being declared that might seriously interfere with their plans. There are opportunities for securing large contracts from the Boston and Maine railroad at Billerica as well as others of a general character throughout the city. While there is any labor trouble pending, the contractors do not feel safe in going ahead so that the result of this settlement of the carpenters' demands will be beneficial to building trades generally. The contractors and the carpenters are alike to be congratulated for arriving at a peaceful solution of the difficulty. Nothing can be more detrimental to the city or to the building trades generally than a strike of any important craft during the summer season.

Let it be remembered that the Boston and Maine company will not take chances with contractors who are liable to be beset with labor troubles. The work must be done in a rush and if Lowell men want any of these contracts they will have not only to bid low, but also to show that they are at peace with the unions.

## SEEN AND HEARD

Here it is only the sixth of June and already the city clerk has issued 25 marriage licenses.

### THE LURE OF THE EARTH

Back to the Land!  
A tired land  
Of weary men,  
List to the cry  
Above the din  
Of the city streets,  
And long to renew  
Their youth again.  
For Care takes wings  
With growing things,  
And Nature speaks  
To the boy growing old  
And he turns to the day  
When he roamed the fields,  
And the lure of the Earth  
To his heart-strings steals.  
The race for gold  
Makes school old,  
And purchased pleasure  
Is only cold.  
For peace is found  
In the sky and the morn,  
In the song of the birds  
And the growing corn.  
George Morrill, Boston.

Capt. Peterson, before the committee on military affairs Friday evening, gave a most interesting talk on the necessity of having a plot of ground for field maneuvers. He explained the great need of training the local militia in outdoor drills, in teaching them how to dig trenches, make sinks, and in every way build up their camp. His remarks were very interesting, to say the least, and the captain certainly deserves praise for his talk, and more evidence of patient and painstaking study.

### FATE

A tree with deep moss underspread  
Like a rug.  
A hummock, where two swing and  
swing sitting snug,  
And over their heads a small twin  
and a bug.  
A whisper, a kiss and a clasping of  
hands,  
Short raven locks mingled with fair  
golden strands.  
A twig and a bug that drops softly—  
and lands.  
A stretch, a swift movement, a swish  
and a swirl,  
A youth turning turtle—a vanishing  
girl—  
So fate grasps love's chances and  
gives them a whirl!  
—Lurana W. Sheldon.

Capt. Wise of the state ordnance department of the state militia, and inspector of rifle practice, while he said at the meeting of the committee on military affairs last Friday evening that he was not a contractor, yet there are very few men in this part of the state who are better acquainted with the cost of steel and iron than the captain. He has bought thousands of tons of steel for the state, and has the subject down to a science. The cap-

## Notice to Abutters

Office of Superintendent of Streets,  
Lowell, Mass., June 2d, 1911.  
The city is about to macadamize the following streets:  
Summit street.  
Universal street, from Moody street to Lowell avenue.  
Stockade street, from East Merrimack street to Brown street.  
Minor street, from Wentworth avenue to Parkview avenue.  
Dutton street, from Emmett street to Lily avenue.  
West Sixth street, from Emmett street to Parkview avenue.  
Dix street, from Moore st. to angle North street.  
Washington street.  
Hawthorne street, from Andrews street to angle.  
Moody street, from Moody street to bridge to Sixth avenue.  
Lilly avenue, from West Sixth street to Hildreth street.  
Knapp avenue.

In consequence of which it is desirable that all persons who contemplate digging on the streets mentioned above for the purpose of making sewer, gas or water connections, or for any other purpose whatsoever, do so at once, under the provisions of the city ordinances no permit will be given to any person to disturb the surface of said streets for a period of five years after said improvements are completed, except as otherwise provided in the ordinances.

NEWELL E. PUTNAM,  
Superintendent of Streets

## ST. THOMAS' SALVE

Is most wonderful. It cures like magic. We have more than 300 testimonials from people in this city who have been cured of different ailments. We have sold thousands of boxes. There has never been a complaint on the market for sale at all. It is a true cure. Order a trial box. No home should be without it.

## Tonic Stimulant and Appetizer

Mrs. L. J. Wright, when hardly able to move around, was put back on her feet, her appetite restored and she gained 15 pounds.  
"It is with pleasure I write to tell you what Duffy's Pure Malt Whiskey has done for me. When I began taking it I was not able to do my housework and was compelled to give up dress-making. I had no appetite and was so weak that I could scarcely keep up. I have been taking Duffy's Pure Malt Whiskey since last spring and have gained about 15 pounds and am now able to do my own work, as well as dressmaking, and feel as well as I ever did. I will gladly recommend your valuable whiskey, to all who need a good tonic stimulant and appetizer.  
"I have also been giving this medicine to my daughter for a cold and it is fine!"—Mrs. L. J. Wright, Hopeton, Va.

### Duffy's Pure Malt Whiskey

will bring a healthy glow to the pallid cheek, give new energy to the fltering limbs, strengthen and invigorate the weary body and sharpen the brain, reanimate the vital organs and create a new supply of rich, red blood. It makes the old feel young and keeps the young strong and vigorous. Prescribed by physicians used in hospitals and recognized as a family medicine everywhere. Thousands of our patients, both men and women, alike, who have been restored to health and strength, extol its virtues as the world's greatest tonic, stimulant and body builder.  
Sold in SEALED BOTTLES ONLY by druggists, grocers and dealers, or direct, \$1.00 per large bottle.  
The Duffy Malt Whiskey Co., Rochester, N. Y.

tain is also an expert on militia law, and has the statutes at his fingers' end, so that he can read them off by the yard. He is perhaps one of the best read men on military affairs in the state.

## THE WINNERS

OF ARTICLES ON KNIGHTS OF COLUMBUS TABLE

The fortunate winners of the very valuable articles on the Knights of Columbus table at the recent bazaar in aid of St. Margaret's parish, were announced last night, and are as follows:

Remington picture, William Galvin, 535 Lawrence street; silk umbrella, Styles Stanley, 74 Old street; carving set, Emma Enright, 22 Adams street; pastel picture, J. Murphy, Gibson street; sofa pillow, Ralph Shaw, 50

## HOW TO TREAT THE FEET.

(By Theodore Beck, M. D.)  
Many men and women, and especially clerks, suffer from tired, aching, swollen and sweaty feet. Others suffer from cold feet, or corns and callouses. This form of misery can be readily banished by the simple daily use of antiseptic vilane powder, a specific of extraordinary virtues.  
Obtain two ounces of vilane powder from any leading druggist and to a gallon of steaming water add a teaspoonful and a tablespoonful of salt. Immerse the feet in this every night for a few weeks, ten to twenty minutes, and it will soothe, heal and remove all poisons and soreness. Corns and callouses disappear and tired feet soon become unknown. Anyone suffering with their feet should have this knowledge. This is very hot, or very cold water should be used.

## CHARITY BOARD

APPROVED MONTHLY BILLS AT MEETING LAST NIGHT

The board of charities met last night and approved a large list of monthly bills. All the members were present.

## MATRIMONIAL

One of the prettiest weddings of the season was that which took place last night at St. John's Episcopal church in Gorham street, the contracting parties being Miss Eva Lydia Young and Mr. Maurice George Perkins, Harvard '06, formerly of this city, but now of Gardner, Mass. Both Mr. Perkins and his bride are well known in this city, the former having come into prominence as an athlete while attending the local high school, while the latter is one of the prominent young ladies in local society.

The bride was attended by Miss Alice M. Baxter of Boston as maid of honor and the bridesmaids were Miss Gladys Jewett and Katherine O'Donnell. She was given away by her uncle, Mr. Freeman N. Young of Boston. Mr. Harold H. Jewett was the best man.

The marriage ceremony was performed by Rev. James Bancroft, the single ring service being used. The wedding marches when the couple entered and left the church were played by Mr. Clayton Kimball.

The interior of the beautiful little church was decorated in an elaborate manner, palms and pink roses predominating.  
The bride was attired in white crepe meteor with long court train and wore a white tulle veil caught with lilacs of the valley, and carried a shower bouquet of lilacs of the valley. Miss Baxter was charming in pink marquisette over pink messaline with pearl trimmings. Misses Gladys Jewett and Katherine O'Donnell both wore white chiffon over pink messaline, trimmed with point-au-vent lace, and wore white silk over pink caps and carried bouquets of shell pink sweet peas. Mrs. C. W. Young, the bride's mother, wore black chiffon over white messaline, and Mrs. Perkins, mother of the bridegroom, gray chiffon over gray messaline.

At the conclusion of the ceremony the couple repaired to 235 East Merrimack street, where a reception was held. The interior of the house was decorated in a beautiful and artistic manner in green and pink. There was a large number of invited guests from this city and out of town in attendance.

A collation was served and music was furnished by Hibbard's orchestra. The ushers at the church and house were: Mr. Victor E. Jewett, Mr. Herbert W. Horne, Mr. John C. Leggett, and Mr. Willard Morrison.  
The bridegroom's gift to the bride was a beautiful lavender enamel brooch and to the ushers a pearl scarf pin, and the attendants of the bride received bar pins of brilliants and pearls as remembrances from her. After the reception Mr. and Mrs. Perkins left on an extended wedding tour, after which they will take up their residence in Gardner, Mass., where the bridegroom is manager of the N. E. T. & T. Co. exchange.

# STUDENT BURNED OF INTEREST TO WOMEN

## He Probably Will be Marked for Life

### Acid Thrown on Him Reached His Face—W. H. Crapo Alleged to Have Thrown the Acid—Young Men Went to Call on Manicure Girls

BOSTON, June 6.—Donald H. Clark, a Harvard student, will probably be marked for life as a result of an adventure early Sunday morning attending an escapade of a quintet of Harvard men in the South End. Sulphuric acid was thrown over him from a cap, a quantity of it striking him on the side of the face, running down his neck and burning it and also his chest. Writings in pain he was taken to the

## PESTS AND PARASITES

GYPSY-MOTH LARVAE PREVENTED FROM ASCENDING THE TREE BY A BAND OF TREE TANGLEFOOT.

This is one of the efficient means of control, and especially for the protection of trees adjacent to infested territory.

(This picture and comment reproduced by courtesy of the "National Geographic Magazine," Washington, D. C. Copyright 1911.)

An article in the April number of the "National Geographic Magazine," of Washington, D. C., entitled "Pests and Parasites," gives startling figures on the damage insect pests cause to trees and plants. It states the necessity of national inspection of all imported plants and trees. The Gypsy and Brown-tail moths imported into Massachusetts have cost that state many millions of dollars and killed countless trees which it takes generations to replace. These pests are spreading all over New England and Northern New York, and there is great danger of their overspreading the entire country.

The article contains several photographs of actual conditions, illustrating the best means of control, one of which we reproduce above, showing a mass of caterpillars crowded below a band of Tree Tanglefoot, which effectively prevents their ascending the tree. They will starve below the Tree Tanglefoot, being unable to reach the leaves—their natural food. The banding compound, Tree Tanglefoot, is especially effective against the moths, moths and also Tussock moths, which greatly injure shade trees in all the states bordering on the Great Lakes.

One application of Tree Tanglefoot is sufficient for the season, as it will remain sticky about three months fully exposed to all weather conditions, ten to twenty times as long as any other known substance.

Tree Tanglefoot is now practically the only banding compound used, its superior lasting qualities having made it universally preferred.

Its advantages over bands of hessian or cotton batting are, that it gives absolute protection where other bands give only partial protection and require daily inspection, and, in the case of hessian, especially, the killing of caterpillars which have congregated below it—most disastrous task.

It also has a great advantage over spraying, in that, being non-poisonous, neither the trees themselves nor the birds which may eat of their berries, fruits or seeds, are poisoned. Birds are an important factor in destroying injurious insects.

It is now believed by some horticultural and entomological authorities that continuous spraying of trees results in their being gradually poisoned, the poison being found in the wood, the leaves and the fruit, apparently absorbed by the sap and carried to all parts of the tree.

In the hands of the amateur, Tree Tanglefoot is the safe preventive, as spraying must be done by experts, else human life and serious injury may result.

Tree Tanglefoot is put up in one, three, ten and twenty pound cans, ready for use. It is easily applied with a small wooden paddle or putty knife. Full directions appear on each can. The price is 24c to 36c per pound. Each pound will make about nine linear feet of band.

Tree Tanglefoot is made by The O. & W. Thom Company of Grand Rapids, Mich., the manufacturers of Tanglefoot the paper, which is used in every village and town in the United States and Canada, and has also an extensive sale in every civilized country in the world, having been the standard in quality for 25 years. Tree Tanglefoot is much superior to all other tree banding compounds as Tanglefoot is easier to all other tree banding compounds, and Tanglefoot is easier to all other tree banding compounds, and Tanglefoot is easier to all other tree banding compounds.

Government, state, city and village authorities now use 50 per cent, to 100 per cent, of the Tree Tanglefoot manufactured, but its use by private individuals to care for their trees is increasing rapidly because it affords protection for the least cost and is the safest and simplest remedy against Gypsy, Brown-tail and Tussock moth caterpillars.

A COLLECTION OF THE SEASON'S FASHION FREAKS

These show from left to right the new pointed train, two new barem dresses, one with the new bead lattice-work effect, the other with the short in front and long in the back effect, and a short waisted empire tunic dress with the new split skirt.

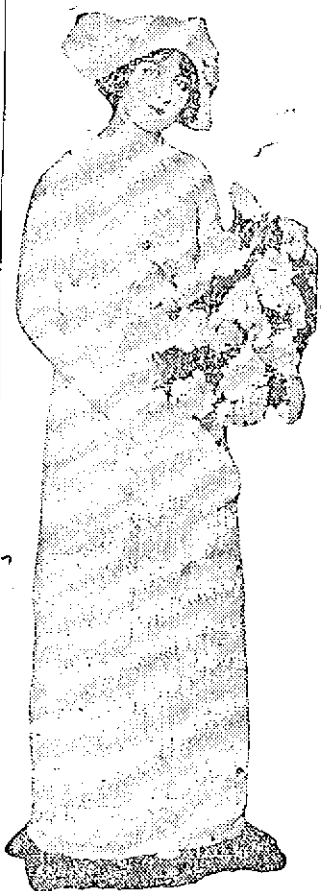

Photo by American Press Ass'n.

### BRIDEAID'S FROCK

This stunning bride's dress is of pale blue satin, the skirt being of chiffon, shirred into a tight belt. Notice the corsetless, short waisted effect. The hat is one of the newest shapes. It is made of white lace straw and blue ribbon.

### CLEVER WOMEN

WHO ARE MAKING A SUCCESS OF THEIR BUSINESS

A clever Illinois woman is Miss Ella Haas, who is deputy state factory in-

pector. Her activity in behalf of women workers of her state has attracted widespread notice.

Mrs. Maria Krause Boelte of New York city holds the record for length of time as a kindergarten teacher. She has taught for half a century and is more enthusiastic now than when she began.

She was born in Mecklenburg-Schwerin in November, 1835. She was a protegee of Friedrich Froebel, the originator of the kindergarten system. For thirty-nine years she has been teaching his system to American women in this country.

"Froebel looked upon woman as the true, natural educator of man," says Mrs. Boelte. "This conviction that education was the vocation of woman grew to the intensity of a faith in Froebel's mind, dominating his whole being. His faith proclaimed that woman had not a holier vocation than that of the education of man, and thus the idea originated with him to train women in normal classes for this divine mission."

"Evolution is the principle of kindergarten work, all things being developed one from another in progressive stages. All that seems merely play to the child has a definite pur-

pose, and this is true throughout kindergarten work. The child by the intended uses of the kindergarten play and occupation also develops originally by the exercising of his power of invention."

"The learns concentration and a willing obedience. By being active, his hands acquire alertness in the making of many things; he learns to use his eyes to compare, to observe, and to imitate things that he sees around him every day; his mind is developed by the constant use to which it is put, and he acquires mental activity by reproducing and comparing forms. Thus by mere playing the child's manual, mental and moral activities are strengthened and his character development is considerably advanced."

Mrs. Boelte has just completed for the state department at Albany a pamphlet of the work, under the title of "Froebelian Kindergarten Principles." Her lectures have been attended by the principal educators in this country.

Miss Sarah Crahen of Toledo, Ore., has been appointed attorney for the state land board. This is the first time in the history of Oregon that a woman lawyer has been appointed to represent the state.

up, he saw two young men on the top step and the three others on the lower steps. He asked them what they wanted and they replied they wanted to see Evelyn Wayne, who occupied the first floor room.

He told them it was no time for them to call and ordered them to leave. Mr. Crapo says that all he received in return was snarls and that the young men on the top step con-

tinued to bang on the wall with the blind. Finally they left the premises, got into the automobile and went away. They were gone not more than an hour, he says, when they returned and the banging of the blind was resumed. Again Mr. Crapo went out to them, but this time, instead of going out by the basement, he went out of the steps by the front door and faced the intruders.

Mr. Crapo is 74 years old and has been in the hospital at various times. He is very nervous and his wife is in a similar condition.

Mr. Crapo, when he went out the second time had in one hand a cup of sulphuric acid. "What was I going to do to protect myself? I had no revolver and no club and I knew I would be powerless to throw myself against five young men," is the way he explained it last night.

"As I went out," he continued, "Clark was still holding on to the blind with one hand while with the other he was holding on to the building."

"I said to them you had better go away or else you will have to take the consequences, but they remained and jeered at me, calling me names and making threatening remarks."

Finally I made a movement with the cup and later I saw Clark put his handkerchief up to his face. He made no outcry. Some of the liquid fell on my stocking, making three holes in it and burning my foot somewhat. I went into the house, took off my stocking and bathed my foot with cold water and then went back.

I could have taken out a pail of water to the young man, but if I had they probably would have set upon me and beaten me. At any rate they went off."

Take Clark to Hospital  
After leaving the steps the men ran over to the auto and helping Clark in Hoffman listened to the City Hospital, where Clark was treated.

The party, it is alleged, then re-

turned. Digging a brick out of the sidewalk, it is alleged that he heaved it through a pane of ground glass in the front door, shattering it. Mr. Crapo has the brick and investigation showed where it was taken from.

The men in the party claim that when Mr. Crapo threw the acid a couple of boys changed to be passing and they threw the brick through the glass in the door.

Mr. Crapo is 74 years old and has been in the hospital at various times. He is very nervous and his wife is in a similar condition.

## A Welcome Change

Smoke curling up from the farmhouse chimney as the men are coming in from the fields, gives a pretty suggestion of a good supper and a comfortable home. But it also means a hot, tired woman, working hard over a blazing fire.

Your wife can escape this with a New Perfection Oil Cook-stove.

A New Perfection keeps a kitchen many degrees cooler than any other range, yet it does all a coal or wood range can do. It saves time, labor and fuel. No wood to cut; no coal to carry; no ashes; no soot. With the New Perfection oven it is the best cooking device you can find anywhere.

**New Perfection**  
Oil Cook-stove

Made with 1, 2 and 3 burners, with long, narrow blue enameled chimneys. Heat evenly distributed throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with deep shelves, towel racks, etc.

Desires everywhere or write for descriptive circular to the nearest agency of the

# AUTOMOBILE NEWS

## BUSINESS QUIET

Local Auto Dealers Had a Dull Week

BUT ANTICIPATE BETTER BUSINESS LATER

Majority of Dealers, However, Report a Brisk Business Up to Date—Repair Work at Local Garages is on the Increase—Too Many Automobile Accidents Due to Intoxication and Joy Riding—Other Automobile News

The sales of automobiles by Lowell dealers during the past week were not so large as might be expected, for the number sold was comparatively small. It may have, however, been one of those dull weeks that are apt to be encountered in any business and have much as nearly all of the dealers have what they consider good prospects on hand but few of them are willing to admit that the best part of the season for sales is over. The repair work has been brisk during the week and the dealers are looking forward to many more weeks of numerous sales in the future.

Arthur G. DeBarrell of the City Hall garage received a telegram today to the effect that three Vette cars have been entered in the Poland Spring (Maine) hill climb to be held next week. Two of the cars are regular stock machines while the other is a special machine. Mr. DeBarrell, who is agent for the Vette, was well satisfied with the showing of the Vette car in the Speedway races at Indianapolis last Tuesday.

Mackenzie and Bryant, agents for the Maxwell and Columbia cars, who

heretofore have been located at 611 Middlesex street, are now conducting a garage in Howard street, near the corner of Middlesex street. Despite the fact that they moved into their new quarters but a few days ago everything is in fine shape, and they will be better able to handle their increasing business.

The breadmaking of roads throughout the eastern part of this state together with the proposed improvement of streets in Lowell and other cities in this section comes as good news to the automobilists.

The Moody Bridge garage, located at the corner of Pawtucket and Moody streets, has done an excellent business so far this season and there is little doubt that this year will be the banner one in the history of the garage. The Oakland car, handled at the garage, has become one of the most popular cars in the city and those who have purchased automobiles of that make are well satisfied. The Knox, which is a higher priced car, has attracted the attention of many autoists and a number of purchases of that make of machine have been made. The Jackson car, for which the owners of the garage are agents, has also pleased many people. Messrs. Joseph Martin, S. L. Rochette and H. S. Girard, of the firm, have done everything in their power to please their customers and the result is that people who purchase machines at the Moody Bridge garage are well satisfied with the treatment they receive. Mr. Arthur J. Cummings, the hustling salesman of the garage, besides selling cars in Lowell, has sold many in Lawrence, Mass., and Nashua, N. H. The repair department is roomy and fitted with the most modern machinery obtainable and is managed by thoroughly competent mechanics.

For some reason or other the sale of commercial vehicles in this city this year has not been so large as was anticipated by the local dealers. One of the reasons may be that there is a much smaller profit in the sale of most commercial wagons than in the sale of pleasure cars and again it may be due to the fact that a prospec-

five purchaser has to wait too long for the commercial car to be delivered.

Many local people enjoyed delightful rides in the country or touring the beaches in Edmond H. Merce's cars during the past week.

Several local dealers who submitted bids for an automobile for the Middlesex Training school in North Chelmsford are wondering when the commissioners are going to make an award.

A high powered automobile in the hands of an intoxicated man is a terrible weapon of death, for a slight twist of the wrist or the skidding of the machine is liable to cause a fatal accident. While there have been but few accidents in Lowell as a result of joy riding, there are more than should have occurred, especially on the Pawtucket boulevard where the drivers of machines who have imbibed too freely are wont to test the high rate of speed at which their cars can travel. It is not so very long ago that one of the world's most famous automobile racers drove a party in his high powered machine at such a rapid rate of speed down the boulevard that he got bewildered and crashed into a telegraph pole in Varnum avenue with the result that several of the members of the party were taken to the Lowell General hospital suffering from broken limbs. Joy rides are usually taken

during the latter part of the night or early in the morning when the lights form shadows that the driver going at high speed mistakes for obstructions in his path and in avoiding the shadow he strikes something real.

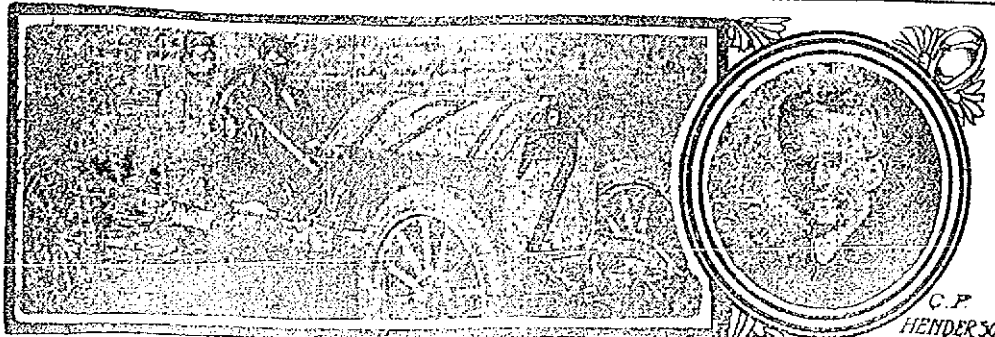

Dr. William P. Lawler of Nesmith street has purchased a model 26 Buick through the agency of the Lowell Automobile corporation. The model 26 Buick which was recently purchased by Dr. Frank G. Gulliland, the dentist, was delivered to him last Tuesday and a similar car purchased by Frank J. Putnam, the produce dealer, was also delivered last week.

George H. Meulon of Lawrence purchased a model 33 Oakland touring car at the Moody bridge garage this morning. It is expected that the car will be delivered within a few days.

Mr. C. K. Fox, the well known Hawthill shoe manufacturer, was in Lowell on business today. As is usual he came over the road in his Packard machine.

One of the most elaborate automobile show rooms in New England is that of the Lowell Automobile corporation in Appleton street and besides the excellent trimmings, paintings and general finish of the interior of the room there are half a dozen cars of different models of the Oldsmobile and Buick which attract the attention of prospective purchasers of automobiles. Manager Fred L. Emerson reports a very successful season both as regards sales of cars and work done in the spacious repair shop. In conversation with the automobile editor of The Sun he said that his success was due to the fact that he carried nothing but standard cars which speak for themselves, competent salesmen and a well equipped repair shop, which is a hard combination to beat.

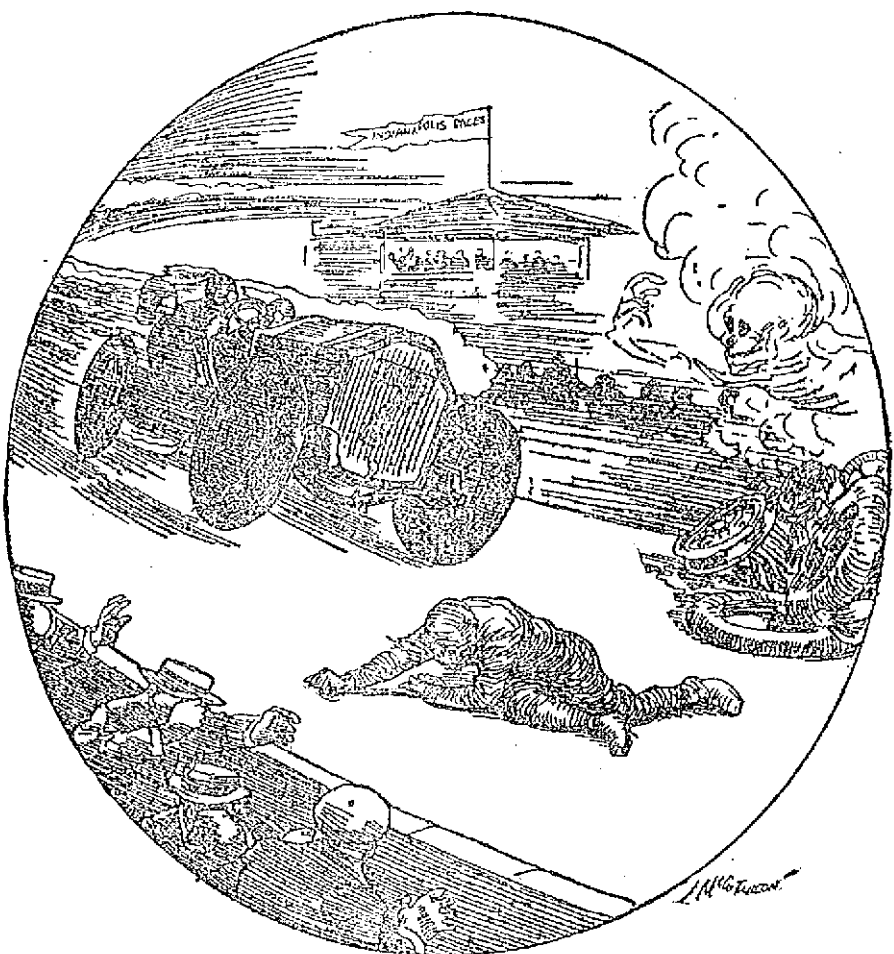

## Carnegie Medal for Speedway Hero?

HARRY KNIGHT AND HIS MECHANIC J.T. GLOVER IN WRECKED WESTCOTT

### A KNIGHT WORTHY OF THE HERO MEDAL.

(Driver Knight averted his car to certain disaster rather than run over a fallen mechanic.)—Account of Motor Races.

Petitions are in circulation asking that a Carnegie hero medal be awarded to Harry Knight, the auto driver who risked his own life and that of his mechanic and sent his Westcott car to disaster at the Speedway in Indianapolis a week ago today rather than run over a fallen mechanic, who had been thrown from a Case car driver by Joe Jagersberger.

Among the names already attached to the original petition are Fred J. Jagers, A. R. Pardington, referee and starter; Carl G. Fisher, A. C. Newby and C. F. Stuart of the Speedway; William Knipper, Joe Matson, Thomas J. Metzler, F. E. Musgrave, Walter Jones, William Endicott, John Jenkins, Charles Arnold, Harry Endicott and H. C. Lathrop, J. J. Cole and Will H. Brown, judges of the race, and Charles P. Henderson, president of the Henderson Motor Sales company, distributors of the Westcott car.

Dr. H. R. Allen, the physician in charge at the Methodist hospital where Knight and Glover, his mechanic, were taken, said:

"If there ever was a hero, Knight is one. He preferred to jeopardize the lives of himself and his mechanic rather than kill a helpless man on the track. Knight also tells me that had he not locked his rear wheels he could have not only killed Anderson, but he would have gone into the Case car, and without a single other rushing drivers would have figured in what might have been one of the worst wrecks in automobile racing history. I saw Knight's heroic action. Both he and Glover are seriously injured, but neither is in a dangerous condition."

**Second Heroic Act For Knight**

Knight was one of the youngest pilots named for the 50-mile race, and owned the car that he drove. This is the second time that Knight has acted quickly and saved a human life. On the day before the Fairmount race at Philadelphia last October the mechanic on a Mercer car was thrown from his car on one of the turns and Knight, a few yards behind, turned his Westcott car into the fence and brought up in a field.

In the event at the Speedway Knight risked the life of John Glover, his mechanic, as well as his own, and crashed into Herb Lytle's Apperson and killed yesterday that he counted his head striking the ground three times, and after being hurled over the heads of a group of spectators he says effort is being made to create interest

with the accident.

Both Knight and his mechanic, Glover, are resting easy at the Methodist hospital. C. L. Anderson, the Case mechanic, left the hospital the other day for his home in Racine, Wis., and Arthur Greiner, the Chicago boy who was injured in the Apperson accident early in the race has left for Chicago. Greiner was in good spirits and made light of his injuries. He walked with a crutch and his left arm was bandaged, but he asserted that he would be back in the game driving race cars within a month. Dave Lewis, Teddy Tetelman's mechanic, who suffered a fractured hip, is resting easy, and Joe Hogan and Walter Barndell, who shared in the practice accidents, were in good spirits and joked about the few survivors left in the "survival of the fittest" ward.

### THE GLIDDEN TOUR

EVERYTHING IN READINESS FOR ANNUAL EVENT

The next big event on the motor calendar is the Glidden tour. This is slated to begin at Washington on June 21 and finish at Ottawa about a week later. New England is particularly fortunate in its share of the tour this year, for the motorists will pass through several of Connecticut and then shoot into Massachusetts.

On the way from Springfield to Boston the hill climb, which has been added, will be held on Dead Horse hill, just outside of Worcester. Then the tourists will continue on to Boston. There will be a stay here over Sunday and the route will be resumed crossing over Hampshire into Vermont.

This means that Springfield will have the tourists one night, Worcester will have them the greater part of a day with the climb, and Boston is to have them two nights and a day. That is more than any other state gets and it is a tribute to the industry here. As a result some effort should be made to make the stay on Sunday a pleasant one.

The entries closed last Thursday, but they have not been announced yet. This is a different policy than what was adopted in other years when the entries were made known from week to week. Somehow or other it seems as if there is no desire on the part of the officials to give the tour the real publicity it deserves. The notices sent out by the press agent have not contained anything of real news value, but it is not his fault.

Present indications are that the entries are not so very numerous, and an effort is being made to create interest

enough to get non-contestants to join the run. It would be a splendid trip for motorists who wish to take advantage of a scenic tour, but there is no need of entering it. The officials have stated that in the interest of not violating the speed laws non-contestants will not be allowed to pass the pace-maker at any time. That sounds all right, but if anyone wants to enjoy side trips and get in ahead in time to wash up, then he wants to go along as a mere motorist not affiliated with the tour. Newspapersmen, that is perhaps a few of them, will not trail behind any official car unless they feel like it. For the sake of the industry every one who has the interest of motoring at heart will sincerely hope there will be a lot of entries and the tour will be a big success.

### "JOE" RAYMOND

Well Known Colored Man is Dead

Joseph B. Raymond, aged 63 years and 10 months, died last night at his late home, 10 Concord street. The deceased was one of the best known colored men of this city, where he has made his home for the past 38 years. He was familiarly known as "Joe," and was universally popular for his geniality.

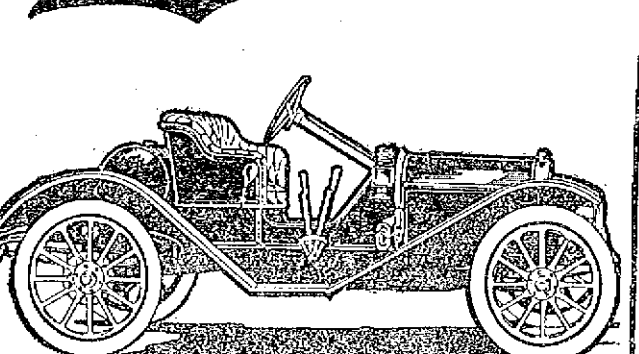

Mr. Raymond was born into slavery at Greenville, Georgia. He made his way north during the war and settled in Lowell.

He is survived by his wife, Mrs. Clara E. Raymond; two daughters, Mrs. Addie E. Banks and Miss Lucy B. Raymond; and one son, Charles S. Raymond, now of Richmond, Va. He also leaves three sisters, Mrs. Elizabeth Lovejoy of Greenville, Ga., Mrs. Nancy Martin and Mrs. Maria Howard of Atlanta, Ga., and a brother, John Rendon of Atlanta. That the brother's name differs from Mr. Raymond's is due to the exigencies of slavery days.

**PIANO RECITAL**

A well attended and delightful piano recital under the auspices of the pupils of Miss Harriette G. Lee, assisted by Miss Gladie Smith, was held in Middlesex hall, Saturday afternoon. One of the features of the recital was the demonstration of the merits of the Falcion system, the pupils playing the different numbers in any key requested by their friends in the audience.

## THE 100% AUTOMOBILE

The Oakland Automobile is such. It has a 100 per cent goodness.

This 100 per cent stands for a design that has proven correct in every detail, materials that have enduring qualities. Graceful bodies and beauty of finish that will satisfy the most exacting buyer.

This 100 per cent stands for medium weight, and that distributed correctly. Medium weight brings your tire expense down to the minimum.

This 100 per cent stands for as much power as you will ever want to use or need. But this power is always under your control. Oaklands idle along at 4 miles an hour or you may go as fast as you want, all to your choosing.

This 100 per cent stands for a record of performance that justifies our claim of superiority. Oaklands have been victorious in competition with the best American cars. This superiority has been proven by the severest tests, that of hill climbing.

This 100 per cent stands for exclusive features, features of accessibility and simplicity.

We want an opportunity to prove these claims. They may seem extravagant to you. So call on us for a demonstration and allow us to go over the Oakland line with you.

## EXTRA ROGERS HALL SCHOOL SENATOR HIBBARD

## SEVERAL NATIONS

Pay Tribute to Cardinal Gibbons  
in Baltimore Today

Distinguished Men Present at  
Demonstration in His Honor—  
Pres. Taft, Ex-Pres. Roosevelt  
and Chief Justice White Among  
the Speakers—The Affair Was  
Entirely Non-Sectarian in  
Character

BALTIMORE, June 6.—Distinguished men of this and other nations will gather here late today to pay tribute to James, Cardinal Gibbons, as a man and a citizen, at a popular civil demonstration in honor of the 25th anniversary of his elevation to the Cardinalate and his golden jubilee as a priest.

The affair will be entirely non-sectarian in character and is in recognition of the influence which the cardinal has exerted for high ideals in citizenship and patriotism.

Addresses will be made by President Taft, Vice President Sherman, former President Roosevelt, Chief Justice White of the United States supreme court, James Bryce, the ambassador of Great Britain, Speaker Champ Clark, Senator Root of New York, former Speaker Joseph Cannon, Mayor Preston and the cardinal.

Members of the president's cabinet, United States senators, congressmen and diplomatic representatives of foreign countries will be present.

Governor Crothers will preside at the exercises, which will be held in Fifth regiment armory from 4 to 6 p. m.

At their conclusion Mayor Preston will give a dinner to about fifty of the guests.

## INDUSTRIAL EDUCATION

Mayor Sends Communication to  
the City Council

The mayor has sent to the city council a communication from the executive department, on the question of state aided vocational education.

The letter and communication from the mayor will be read at the meeting of both branches of the government this evening, and referred to the joint standing committee on education. The letter from the mayor, and the letter from C. A. Prosser, deputy commissioner of the state board of education, are as follows:

Lowell, Mass., June 6, 1911.  
To the City Council of the City of Lowell.

Gentlemen:—Enclosed find communication from Charles A. Prosser, deputy commissioner of the state board of education, in regard to state aided vocational education.

Respectfully yours,  
John F. Meehan, Mayor.

Boston, June 5, 1911.  
To the Honorable Mayor and City Council, Lowell, Mass.

Gentlemen:—In response to a series of resolutions passed by different organizations in Lowell, including the one passed by your honorable body, an investigation has been made of the need of industrial education in your city.

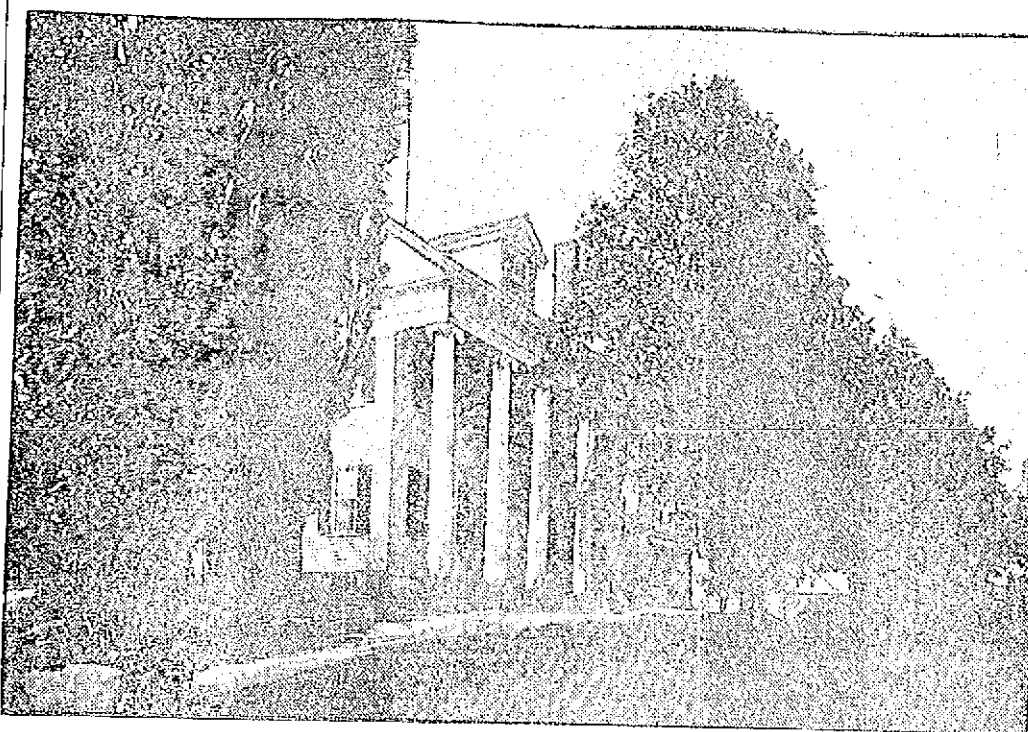

On the 27th day of May, 1911, a new statute was enacted, codifying and amending legislation relating to state aided vocational education, and in it the school committee of any city or town was authorized to establish and maintain independent industrial, agricultural or household arts schools. Under the authority conferred by that act, the Lowell school committee, on the night of May 31st, 1911, voted to establish an independent industrial school as early as feasible, and took steps looking to the employment of a director for the work at an early date.

The agents of the board of education are ready to submit a report upon their investigation, with recommendations. This they will do at an early date to the school committee which has so actively and energetically entered upon the establishment of a scheme of vocational training for the youth of your city. This office will also from time to time give such advice and assistance as it can to the local school committee and to those acting for it in the development of the scheme for practical training for young people which will best serve the needs of Lowell.

Very truly yours,  
C. A. Prosser,  
Deputy Commissioner.

LIGHT CORP.

50 Central Street

ROGERS HALL SCHOOL

Commencement Exercises Attracted  
a Large Audience

The commencement exercises at Rogers Hall school in Rogers street were held this morning in the magnificent building opposite Fort Hill park. There was a very large attendance, the parents, relatives and friends of the students having turned out in large numbers.

This school is well known throughout the country and a proof of it is that of the 21 graduates of the 1911 class, there were some from the states of Ohio, New Jersey, New York, Georgia, Alabama, Michigan, Pennsylvania, and Maine.

The exercises began with prayer by Rev. Benjamin A. Wilmott of Lowell, followed by a very interesting address by Rev. Marion LeRoy Burton, D. D., president of Smith college, who spoke particularly on school work.

Rev. A. St. John Chambré, D. D., of Lowell then delivered a short address to the pupils and presented the diplomas to the following:

Hildegard Frances Baxter, Lima, Ohio.  
Alice Towne Billings, Lowell.  
Leslie May Brown, Lexington.  
Julia Ellen Burke, Lowell.  
Amy Luray Condit, East Orange, N. J.

Charlotte Heath, Newark, N. J.  
Helen Whittie Gallup, Sandusky, O.  
Rachel Anna Jones, Billerica.  
Katharine Cameron Kemp, Maplewood, N. J.

Anna Gayler Kuttner, New York City.  
Katherine Tracy L'Engle, Atlanta, Georgia.  
Clara Bonney Liley, Lowell.

Esther May Loveman, Birmingham, Ala.  
Helen Munroe, Muskegon, Mich.  
Millicent Painter, Kirtland, Penn.  
Gwendolen Gray Perry, Rockland, Me.

Evalyn Clark Pike, Lubec, Me.  
Marcelle Schell, Montgomery, Ala.  
Hazel Sleeper, Boston.  
Helen Madeline Smith, Malden.  
Marjorie Wadleigh, Lowell.

Miss Helen Munroe of Muskegon, Michigan, president of the senior class, in behalf of her classmates, presented the school a beautiful silver candelabra and a very neat divan for the drawing-room. The acceptance of the gifts was made by Mr. A. G. Pollard of this city in behalf of the directors of the institution.

The exercises closed with benediction.

## CANADIAN RECIPROCITY BILL

WASHINGTON, June 6.—Executive consideration of the Canadian reciprocity bill was begun today by the senate finance commission, although no effort will be made to reach a vote on it before tomorrow; the date fixed last week by the committee as the time when the bill and proposed amendments thereto will be voted on.

Secretary of State Knox, who was asked to appear before the committee today to explain whether the Root amendment to the paper section of the bill was in accord with the agreement, was unable to be present at the morning session of the convention but it was understood would appear later in the day.

## CITY HALL NEWS

Report on High Street  
Engine House Ready

The board of aldermen and common council will meet this evening at 8 o'clock.

The committee on fire department will meet Friday evening at 8 o'clock, and will consider the request of several houses for individual rooms for the firemen to sleep in, rather than the dormitory arrangement which obtains in some of the houses at the present time. The committee may also make some recommendations relative to the High street engine house trouble. Alderman Joseph Jodelin admitted that the report on the High street engine house dispute is practically complete and that the entire report would be discussed Friday evening. Further than this he would have nothing to say relative to the matter.

## Board of Health

The members of the board of health will meet in regular session Friday afternoon at 4:30 o'clock. General routine business will be transacted and one or two complaints about some irregularity in the collecting of swill by certain individuals will be taken up and investigated by the board. There are also one or two milkmen who are charged with infractions of the milk regulations. These violations, the board says must stop immediately or there will be prosecutions in police court.

## MATRIMONIAL

A pretty wedding was solemnized this morning at St. Louis' church when Mr. Francis J. O'Neil and Miss Augustine J. Beauchamp were united in marriage. The ceremony was performed by Rev. R. A. Fortier at a nuptial mass celebrated at 1 o'clock. The young couple were attended by Mr. Michael J. Tracey, who served as best man and Miss Rose Bella O'Neil, who acted as bridesmaid.

After the ceremony the couple repaired to the home of the bride's parents, Mr. and Mrs. Frank Beauchamp, 30 Camp street, where a wedding dinner and reception was tendered them. Mr. and Mrs. O'Neil received many rich and useful gifts.

## LEMIERE-DUPUIS

The marriage of Mr. Albert Lemiere and Miss Rose Dupuis took place this morning at a nuptial mass celebrated at Notre-Dame de Lourdes church at 7 o'clock. The officiating clergyman was Rev. Leon Lamotte, O. M. I. The witnesses were Messrs. Andre Hubert and Joseph Dupuis. A wedding dinner was served to the young couple and a number of their relatives and friends at the home of the groom, 162 Powell street.

## EXMER-VEILLEUX

Mr. Paul Charles Exmer of Methuen, N. Y., and Miss Dorothea Veilleux were united in marriage this afternoon, the ceremony being performed at Notre-Dame de Lourdes church at 12 o'clock by Rev. Fr. Lamotte, O. M. I. The bride and the best man were Mr. Sylvia L. Heston. After the ceremony the couple repaired to the home of the bride's parents in South street, where a reception was tendered them.

## ST. LOUIS' CHURCH

CORPUS CHRISTI PROCESSION TO  
BE HELD

Following the example of the other churches, Rev. Fr. J. N. Jacques, pastor of St. Louis' church, has decided to hold a procession of the blessed sacrament on the feast of Corpus Christi.

The feast falls on Thursday, June 15th, but the celebration will be postponed to the following Sunday. A repository will be built in the open air, but the place has not as yet been selected. This will be announced Sunday in church as well as the route of the procession.

All the societies of West Centralville, religious as well as benevolent, and the clubs are invited to take part in the parade in a body. Solemn benediction will be held at the repository, and appropriate hymns will be sung by the church choir and the children of Mary sodality choir along the line of the procession.

## HAS NO SUBSTITUTE

The only baking powder  
made from Royal Grape  
Cream of Tartar  
NO ALUM, NO LIME PHOSPHATE

Moved to Amend Adverse Report  
on Lowell Charter

Action Postponed Till Thursday  
in Order That the Amend-  
ments to the Bill May Be  
Printed

Senator Hibbard today in the Massachusetts senate moved for an amendment of the adverse report on the Lowell charter, by the substitution of the bill. He was prevented from moving substitution direct because several amendments had been made to the original bill and it was necessary to have these printed so that a complete measure could be offered as a substitute for the adverse report.

In order to allow time for printing the bill as it will be acted upon by the senate, the whole matter was put over till Thursday afternoon, when it will be taken up in the senate and in all probability acted upon favorably.

## GIRL TRIED SUICIDE

Was Found Unconscious in Room  
Filled With Gas

NEW YORK, June 6.—Dying at the Hood Wright hospital is a beautiful young woman, who yesterday was found in a room at 191 West 51st street, unconscious from the fumes of gas which filled the place. She had planned suicide, and the police say had engaged the room Sunday afternoon for the purpose.

The house where she attempted suicide is a rooming house conducted by J. T. Mattson. According to the story he told the police the young woman came there and asked to look at the vacant rooms. She selected the best in the house and said she had just come to the city to spend her vacation. She kept up a steady run of conversation, which caused Mattson to forget to ask her what her name was or where she hailed from.

She was dressed in the best of taste in a handsome long suit of brown material, black low cut cuffs and black silk stockings. When Mattson did manage to ask her something about herself

she said: "O, I'm a cook," but the way she said it impressed Mattson with the idea that she was trying to repel personal questions. So he asked no more questions.

As soon as she got to her room she began writing letters, and at 9 o'clock she went out to mail them. She stopped at Mattson's desk to ask him if he had any stamps, and when he told her that he had none, she inquired the way to the nearest drug store, where she could buy them.

She was not seen after she returned from mailing the letters. Some time during the night she closed and locked the two windows in her room, filled the crevices between the windows and the frame case fully with paper, and also the spaces about the two doors, and then opened three gas jets. Then she undressed and went to bed to await the end.

She had destroyed all clues to her identity, and even cut out the faces in two pictures taken of her in bathing costume at some seaside resort.

## LOWELL CASES POLICE BOARD

Heard In the Superior To Hear Charges  
Court Against Liquor Men

Several Lowell cases in which appeals had been made from the sentences imposed in the local court were heard at the criminal session of the superior court in Cambridge yesterday. Supt. Edmund Welch, Capt. Atkinson, Sergt. Groulx and several patrolmen were on hand to testify in the different cases.

Frederick A. Giles, who was before the court for drunkenness, was placed in the hands of the probation officer as was Nellie A. Ellis who was charged with adultery. Joseph Coyle, charged with drunkenness, was sent to the Massachusetts Reformatory. John J. Reynolds, who appealed from a sentence of drunkenness was placed on probation and Elizabeth McDermott, charged with drunkenness, was also placed in the custody of the probation officer.

What is expected to be an interesting session will be held tonight by the members of the police board. There is considerable routine business to be transacted, but the most important matters to be considered are hearings in the cases of Eugene A. Shea, who conducts a liquor saloon in upper Broadway, and that of Hugh Ferguson, licensee of the St. James hotel.

Shea is charged with violating the conditions of his first class license by selling a bottle of liquor, while Ferguson is charged with having sold liquor after hours.

If continuances are not granted it is expected that the session will be a long as well as hot one.

## MARTIN LUTHERS

WILL OPEN THEIR SUMMER CAMP  
ON THURSDAY

The Martin Lutherans are ready for the fray again, and on Thursday will open the season of 1911 with their 31st outing at the banks of the Merrimack river. They will go up river on the boat and the usual fine time is anticipated.

## CITY COUNCIL

To Act on Death of Ex-  
Mayor Runels

The following communication from his honor the mayor, officially announcing the death of the late Ex-Mayor George E. Runels, and requesting that the city council take appropriate action will be read at the meeting of both branches tonight:

Mayor's Office, Lowell, June 6, 1911.  
Gentlemen: I desire to call your attention to the death of the Hon. George E. Runels, which occurred at 2 o'clock on the afternoon of June 5. Mr. Runels was a member of the common council in 1862, of the board of aldermen in 1864, and in 1873. In 1882, he was mayor of the city of Lowell. He was a far-seeing business man, and a true, capable and efficient public servant. Trusting you will take fitting action on his death, I remain,

Respectfully yours,  
John F. Meehan,  
Mayor.

# PUBLIC BATHS

## Wanted on the Commons and the Canals

### Alderman Barrett and Councilman Coughlin Advocate Them — Judge Pickman Strongly Favored the Proposition

Alderman Barrett wants public bath houses on the commons.

Councilman Coughlin wants bath houses on the commons.

Each presented his proposition at a conference of the park commission and the special joint committee on public baths at city hall last evening.

They found in Judge Pickman a strong advocate of public baths and he assured the members of the committee that he would do all in his power to get public bath houses in this city.

The usual snag was run up against in the Locks & Canals company on both of the propositions, for the company appears to have a hold on the commons as well as over the canals.

During the meeting Alderman Barrett did not miss the opportunity to pay his respects to the park board, giving all its attention to Fort Hill park and neglecting the commons.

The conference opened at 9 o'clock, and Mr. Coughlin at once presented his South common plan.

Judge Pickman said that the land constituting the commons was not that land. He believed the same restrictions obtained with respect to the North common.

He cited the bill in equity brought against the city to prevent the erection of certain structures on the South common on the night before and of July 4th.

There was a hearing before Judge

Pessenden and the right was granted for those nights.

Judge Pickman said there would be danger in erecting a building there for permanent use, because the grants might object and the land would be lost to the city. A petition might be entered in the legislature, asking permission to erect a bath house. It is very late, at the present time, he believed, to introduce new business.

"I feel that it is a mighty good project," Judge Pickman said. "It is a disgrace to the city that with so much water running through it, we have no public bath houses."

Alderman Barrett then suggested that bath houses could be built over the canals at a minimum cost, provided the Locks & Canals company remove their restrictions on the canals.

Judge Pickman suggested the danger of typhoid if the water was not filtered, but said that he would abide by the decision of the physicians.

Alderman Barrett was of the opinion that Lowell has the best facilities for bathing of any city in this section of the country. "But," he said, "we have too much state interference in this city; let the state remain out and mind its own business."

Councilman Coughlin thought that an equipped bath house on the south common would cost between \$4500 and \$6000.

Alderman Barrett inquired the cost of erecting and equipping a gymnasium in Boston. He said that the burden of running bath houses and gymnasiums should properly be wholly supported

from a knife, gun, tin can, rusty nail, saw, or any other article which might be used for the purpose of committing a crime. He said that the burden of running bath houses and gymnasiums should properly be wholly supported

(From the Fall River Globe.)

Dr. Wm. E. Barker Makes a Remarkable Statement After Traveling from the Atlantic to the Pacific.

As he secured some of the most notable endorsements to his theory, he does not hesitate in saying that he will positively guarantee bloodline to cure stone in the bladder or any kidney or bladder trouble, no matter how long you have been suffering. Ninety-seven per cent. of the entire population of the United States is afflicted with kidney or bladder trouble. In the last seven years bloodline has cured 96 per cent. of the cases that have been treated with it.

Hundreds of cases of hemorrhage of the bladder have been cured after treatment in some of the leading hospitals has failed to even relieve the patient. We are therefore confident that our theory of treating these cases with bloodline, is the only possible manner in which such a large percentage of cases can be cured, that we do not hesitate to guarantee the efficiency of bloodline.

Mr. Hanson, the business manager, of the Postal Telegraph and Cable Co., of Biddeford, Maine, had a stone in the bladder removed with six and one-half bottles of bloodline, after being told by all of the leading physicians in his vicinity that the only way it could possibly be removed was by an operation. We stand ready to furnish positive proof of the above statement to any one doubting the truth of the same.

More than five million bottles of bloodline were sold in America last year. Can there be any greater evidence of merit than this unparalleled sale of a scientific product. No other product has ever met with such astounding sales in so short a period, and from a conservative estimate the sales this year will reach ten million bottles. 2580 bottles were sold in a single day in Cleveland, Ohio; 2160 bottles were sold in Rochester, N. Y., at the first day's introductory sale; and 1400 bottles in Paterson, N. J., in one day. No scientific treatment has ever attained such success in America. We are now supplying druggists with bloodline, for the convenience of those wishing to convince themselves of its merits. If your druggist does not have it, The Bloodline Laboratories, Boston, will supply you with a six weeks' treatment (six bottles) for \$2.50; 50c a bottle, trial sample and booklet free.

NOT GUILTY

LOWELL MAN DISCHARGED IN COURT AT SALEM

George L. Uman of this city, who was arrested four weeks ago in connection with a horse case appeared before the superior court, Salem, yesterday and at the conclusion of the hearing of the case was discharged owing to lack of evidence to convict.

At the time Uman was arrested it was thought that he was connected with a horse stealing case, but he explained that a man named Spaulding owed him \$70 and gave him the horse in settlement of the debt. While Uman was trying to sell the horse he was placed under arrest on suspicion of having stolen.

When the case was called in Salem yesterday there was no evidence to show that he had stolen it and the court found him not guilty and ordered the complaint dismissed.

### Earnings of Business to Go to Families

The uniform desecration act recently passed by the legislature, which will go into effect on the 18th day of June, contains a provision whereby by an order of the court, the master of a house of correction is required to pay a sum equal to 50 cents a day for each day's hard labor, of a person confined under the provisions of the act for non-support or desertion of wife and minor children, or of minor children by either father or mother. The money is to be paid by the probation officer, and by him to the wife or the person or institution having custody of minor children.

The new law contains many of the provisions now included in the statutes dealing with non-support and desertion cases, for the provision for payment from the earnings of the convicted person while working at a common institution is new. In the past many persons who have been convicted for non-support have had their freedom in order to be able to provide for the support of the complainant, but soon it will be possible to send the defendant to jail to do the work.

Section 8 of the uniform desecration act follows: "It shall be the duty of the superintendent, master or keeper of the case may be, of any reformatory or penal institution in which any person is confined by virtue of a sentence imposed under the provisions of this act, providing that the court imposing such sentence finds the wife, child or children, as the case may be, of such person to be in destitute or needy circumstances, and so order to pay over to the probation officer, at the end of each week a sum equal to 50 cents for each day's hard labor performed by the person so confined, or to the payment of the superintendent, master or keeper, as the case may be, in charge of the reformatory or penal institution, shall state the name of the person for whose labor the payment is made, and the probation officer shall pay over such sum promptly to the wife, or to the guardian or custodian of the minor child or children of the person so confined, or to the city, town, corporation or society supporting the wife or minor child of children at the time when the sentence was imposed, or to the treasurer of the commonwealth for the use of the state board of charity when the complaint was for neglect to provide for the support of the minor child or of minor children who have been committed to the custody of said board."

Section 8 of the uniform desecration act follows: "It shall be the duty of the superintendent, master or keeper of the case may be, of any reformatory or penal institution in which any person is confined by virtue of a sentence imposed under the provisions of this act, providing that the court imposing such sentence finds the wife, child or children, as the case may be, of such person to be in destitute or needy circumstances, and so order to pay over to the probation officer, at the end of each week a sum equal to 50 cents for each day's hard labor performed by the person so confined, or to the payment of the superintendent, master or keeper, as the case may be, in charge of the reformatory or penal institution, shall state the name of the person for whose labor the payment is made, and the probation officer shall pay over such sum promptly to the wife, or to the guardian or custodian of the minor child or children of the person so confined, or to the city, town, corporation or society supporting the wife or minor child of children at the time when the sentence was imposed, or to the treasurer of the commonwealth for the use of the state board of charity when the complaint was for neglect to provide for the support of the minor child or of minor children who have been committed to the custody of said board."

# HON. GEORGE RUNELS

## Former Mayor of Lowell Passed Away Yesterday Afternoon

Hon. George Runels, mayor of Lowell, died yesterday afternoon at his home, 419 Thornehill street, at the advanced age of 83 years and 4 months. He had been ill for some time, and his death was not unexpected. Some three months ago Mr. Runels suffered a severe attack of grip, which left him lame and infirm. He was attended by Dr. E. L. Packer and Dr. John P. Sutherland, a Boston specialist.

THE LATE GEORGE RUNELS

The cause of death it is believed was arterial sclerosis. Mr. Runels had a most interesting career. His ancestors were Scotch and came from Halifax to Bradford, Mass., as early as 1774. He was born in Warner, N. H., the son of Major Daniel Runels and Chloe George of Warner, N. H. Feb. 3, 1828. His mother died in 1829 and he remained with his father until he died in 1837. He then worked at blacksmithing and farming for a time. His education was received in the district schools and in the New London academy. He first came to this city in 1849 and learned the trade of stone cutting. That same fall he went to New Hampshire, traveling about selling books. Returning, he sailed on a whaling expedition from Fairhaven to the South Pacific ocean. About a year and a half later the barque was wrecked on the coast of the Fiji Islands and after three days exposure in open boats the crew was picked up by a ship which left them in New Zealand. Mr. Runels worked there for three months at pit sawing and wharf building—the first on the island—and shipped from there to the East Indies and the Fiji Islands. He remained in this vessel a year, leaving for Manila and thence went to Canton, Singapore and Calcutta, ship-

ment from the latter place to Boston. He arrived here in 1845 and entered the stone cutting business. In the fall of 1849 he had the gold fever and went to California, returning the following year. He next turned his attention to farming for four years, after which he engaged in active business in this city until 1875, when he retired from business life.

## LARCENY CHARGE

### Lawrence Man Held as Horse Thief

PROVIDENCE, June 6.—Charged with horse stealing, Lewis F. Conlon, said to be the son of a police officer, was arrested in Woonsocket last night and brought to this city for examination. The arrest was made at the request of the authorities of Lawrence, Mass., who have located eight horses which Conlon is charged with having stolen, but as there have been numerous horse thefts in Providence, Pawtucket, Woonsocket and Cranston recently the local officers refused for the present to turn him over to the Massachusetts officers. Today officers from these four cities, with several horse owners whose animals are missing, will visit Lawrence and attempt to identify the animals and if they are successful Conlon will be placed on trial here.

## AT SACRED HEART CHANGE IN THE HOURS OF THE MASSES

It has been announced at the Sacred Heart church that the hours for the Sunday masses hereafter will be 6, 7:30, 9 and 10:30 a. m., the high mass being at the last named hour, and the children's mass will be at 8:30 a. m. At the 7:30 o'clock mass next Sunday the members of the Holy Name society will receive communion in a body. The closing exercises for the Sacred Heart school will be held June 18 for the junior classes and June 25 for the seniors.

## MEN WHO WILL REVISE COURT RULES TO AVOID LEGAL DELAYS

WASHINGTON, June 6.—Chief Justice White of the United States supreme court has announced that he has appointed a committee to revise the rules of equity practice in the United States courts. The committee is composed of himself and Justices Lurton and Van Devanter, the only members of the supreme court who have had experience on the bench of the United States circuit court, Justice Lurton since 1893 and Justice Van Devanter since 1903. This move is the initial step in a great reform in federal court procedure, which has long been advocated by Justice White, who has often criticized the antiquated practice on the chancery side of these courts. The present rules were promulgated in 1842. They are adapted

in their entirety from the ancient rules of the high court of chancery of England and are cumbersome and complicated in the highest degree, leading themselves to delays and embarrassing litigation rather than expediting causes. The new rules will do away with many legal delays, following the recommendations made by President Taft in several addresses.

For instance a well dressed man speaking book English, but with a pronounced French dialect, said yesterday at court that it was all a political scheme to deprive him and others from becoming voters.

The Sun today has received several communications, all blaming Clerk Dillingham of the superior court who is absolutely blameless for what occurred.

A resident of ward two called at the Sun office this morning demanding an investigation of Clerk Dillingham's office. "He asked the crowd up at court that it was all a political scheme to deprive him and others from becoming voters."

Another man saw a deep laid plot on the part of the county clerk, while a third seeing certain democrats present placed the responsibility with them, stating that they were attempting to stop an increase in the republican voting strength of Lowell.

More Discrimination. But seriously speaking, it looks like the old discrimination on the part of the lower end of the county, that is if what the statements of the lawyers and others interested in naturalization matters ever is true.

In every court in the state except Middlesex, it is said, the last days of the jury waived sessions of court are devoted to naturalization. In Lawrence, only 10 miles away, naturalization sessions are held in this manner.

But in Middlesex naturalization is being "ducked" to use the vernacular, by the court authorities. If anybody from the lower end of the county wants naturalization he is sent over to Boston to the United States court, only a five cent fare from Cambridge, and is attended to and hence there is no need for a session in that city. In Lowell up to date, since 1896, applicants for naturalization have been compelled to leave their work and go to Boston with their witnesses, paying the expenses of both witnesses as well as their own. Chief Justice Alder has never appointed any sessions of naturalization for Lowell and Cambridge, however, the Middlesex county court authorities, all of whom are residents of the lower end of the county, never showed him any need for it. It took just one session yesterday to show Clerk Dillingham that Lowell needs a couple of sessions per year.

Matters would have gone along indefinitely as far as Lowell is concerned had it not been for Rep. Marchand's bill providing for special sessions in Lowell. Rep. Marchand is interested in naturalization among French Canadians and he knew that they could not well afford the expense of the trips to Boston, but he didn't know that the court was supposed to take care of naturalization cases, and therefore he introduced his bill. When the matter became public property he was informed that there was no necessity for

## Decided Two Very Important Questions Today

### The Powers and Duties of the Committee on Appropriations Defined—He Recommends That City Council Pass an Ordinance Designating Who is Head of the Fire Dept.

This was "opinion day" at the city solicitor's office, and he handed down two important opinions. In the first one he defines the powers, and outlines the duties of the committee on appropriations. In the second opinion the solicitor says that the board of engineers has a legal existence, and that the mayor, and the city council are the body in which the power of appointment and confirmation is vested. He, however, advises the city council to pass an ordinance specifically designating who the head of the department really is, and who has the specific right of appointment. The opinions follow:

**Duties of Appropriation Committee**  
Office of City Solicitor,  
Lowell, Mass., May 31, 1911.  
Board of Aldermen, Lowell, Mass.  
Gentlemen: I have your request for an opinion as to the powers and duties of the committee on appropriations. Under the provisions of an ordinance passed in 1893, (repealing section 6 of chapter 1 of the Revised Ordinances) and another ordinance passed in 1900 amending the ordinance of 1893, the powers and duties specifically vested

## NATURALIZATION

### Lowell Frozen Out by Court Officials

### All Other Counties Have Naturalization at Jury Waived Session of Superior Court—Cambridge Naturalization Cases Sent Across Bridge to Boston

The unprecedented mix-up over the first session of the court for naturalization held in Lowell yesterday has raised many questions, some serious and well worth consideration and some ridiculous.

For instance a well dressed man speaking book English, but with a pronounced French dialect, said yesterday at court that it was all a political scheme to deprive him and others from becoming voters.

The Sun today has received several communications, all blaming Clerk Dillingham of the superior court who is absolutely blameless for what occurred.

A resident of ward two called at the Sun office this morning demanding an investigation of Clerk Dillingham's office. "He asked the crowd up at court that it was all a political scheme to deprive him and others from becoming voters."

Another man saw a deep laid plot on the part of the county clerk, while a third seeing certain democrats present placed the responsibility with them, stating that they were attempting to stop an increase in the republican voting strength of Lowell.

More Discrimination. But seriously speaking, it looks like the old discrimination on the part of the lower end of the county, that is if what the statements of the lawyers and others interested in naturalization matters ever is true.

In every court in the state except Middlesex, it is said, the last days of the jury waived sessions of court are devoted to naturalization. In Lawrence, only 10 miles away, naturalization sessions are held in this manner.

But in Middlesex naturalization is being "ducked" to use the vernacular, by the court authorities. If anybody from the lower end of the county wants naturalization he is sent over to Boston to the United States court, only a five cent fare from Cambridge, and is attended to and hence there is no need for a session in that city. In Lowell up to date, since 1896, applicants for naturalization have been compelled to leave their work and go to Boston with their witnesses, paying the expenses of both witnesses as well as their own. Chief Justice Alder has never appointed any sessions of naturalization for Lowell and Cambridge, however, the Middlesex county court authorities, all of whom are residents of the lower end of the county, never showed him any need for it. It took just one session yesterday to show Clerk Dillingham that Lowell needs a couple of sessions per year.

Matters would have gone along indefinitely as far as Lowell is concerned had it not been for Rep. Marchand's bill providing for special sessions in Lowell. Rep. Marchand is interested in naturalization among French Canadians and he knew that they could not well afford the expense of the trips to Boston, but he didn't know that the court was supposed to take care of naturalization cases, and therefore he introduced his bill. When the matter became public property he was informed that there was no necessity for

his bill as the matter was already provided for, and Judge Alder appointment yesterday as the day for the court to open in Lowell. But the public now knows what a fizzle yesterday's session was as the clerk had only first papers and those who have held first papers for two years and desired the second papers, to which by law they are entitled, were informed that they could not get them as the clerk had not received them from Washington and that their only hope of becoming citizens this year so as to vote in this year's elections was to go to Boston in the old way and at the old expense and get out their papers.

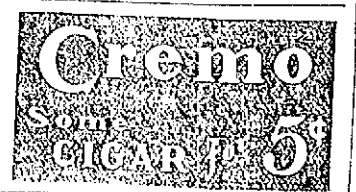

A jury waived session of the superior court closed only last Friday and if Middlesex county was doing business as the other counties do it all these 200 or more men who went to the court house yesterday could have had their papers made out and become citizens in time to register at the opening of the sessions for registration.

It's the same old disregard of Lowell and Lowell interests and will lead eventually to an agitation for a split of the county into a North and South Middlesex county. The registry of probate for Middlesex county is said to be the largest registry of its kind in the entire United States. A good share of its business comes from Lowell and vicinity. Yet there is not a Lowell man nor a Lowell woman among the army of employees of that office. Outside of a few deputy sheriffs, Lowell doesn't figure in Middlesex county patronage.

## MRS. BARLOW

### HAS GOOD LEAD IN THE GOLF TOURNAMENT

NEWTON, June 5.—Mrs. Ronald Barlow of the Merion Cricket club of Philadelphia started this forenoon in the second round of 18 holes for the championship of the Women's Eastern Golf association, with a more commanding lead than has been obtained by any player in the history of the meetings, as a result of the first day's play. The superiority displayed by the leader in yesterday's play gave every assurance that she would maintain her leadership well toward the end. Three withdrawals were announced this morning but they in no way affected the leaders. There is considerable

## WRIGHT WRONG

### Lowell First Baseman Had an Off Day

LYNN, June 5.—For the first time this season Wright was wrong in the Lowell-Lynn game. Wright was far from being right on 1st base and his misplays together with Harrington's great pitching were responsible for the one-sided score. It's the second time this season that Harrington has put it all over the Bingham Bros, which is the best evidence that he is some pitcher. The score:

| LYNN          | ab | r | h  | bp | e |

## TELEPHONE RATES

## Reduction Announced by the N. E. Telephone Co.

The earnest efforts of the joint special committee of the city council on the reduction of telephone rates have been successful, for today Chairman Aehn received a letter and a schedule from T. E. Parker, division commercial superintendent of the N. E. Telephone Co., announcing very material reductions in the case of both business concerns and residences. Some of the reductions range from 15 to 20 per cent. Mr. Parker's letter is as follows and is self-explanatory:

Lowell, Mass., June 5, 1911.  
Mr. Frank M. Dowling,  
Clerk of Committee, City of Lowell.

Dear Sir:—I herewith enclose a copy of the new "telephone rate and service schedule," which was discussed with your committee on May 31st, 1911. As stated at that time, the new schedule came into effect in Lowell until substantial additions are made to the Lowell switchboard and outside plant.

The work of making these additions will be begun at once and pushed forward with all dispatch.

Very truly yours,  
T. E. Parker,

Division Commercial Superintendent.

Some few days ago the special committee went to Boston and held a long conference with E. K. Hall, one of the leading attorneys for the telephone company and Theodore E. Parker, division commercial superintendent. At the conclusion of the conference the committee was informed that the N. E. Telephone Co. would do everything in its power to satisfy the committee, the city council, and the people of Lowell in general.

It will be seen in some cases the reduction is greater than really expected by the committee. For instance "one party flat" present business service \$66, is reduced to \$47 per year, and the "two party flat" \$80, is discontinued and you can now have a "one party flat" for \$57. Then, again, in residence "one party flat," the present rate \$42 is reduced to \$33, and "two party flat" residence from \$33 to \$27. The six party flat is dispensed with entirely and now you can have a "four party flat" for the same price, namely \$25. Other reductions follow in a similar line.

These reductions will go into effect just as soon as possible. It is expected that the new telephone building on Appleton street, will be fully equipped and ready for occupancy in about a year, but long before the year is over the announced rates and new service will be in effect. It is the intention of the company to give Lowell the latest, the best and most perfect telephone service of any city in New England, and the company has certainly made a good start in that direction.

One of the innovations in the telephone service in this city will be in the two party flat, where the company proposes the introduction of a dividing ring which will have the effect of practically giving each party a private line. Several other improvements of a like nature will be introduced just as soon as possible. The table of reductions and readjustments is appended:

Business: One party flat, \$57; two party flat, \$60; one party flat, measured, \$40 calls, \$42; one party flat, measured, 720 calls (new), \$36; two party flat measured, 720 calls, \$30; one party coin box \$15.53; four party coin box, \$27.38 (new).

Residence:  
One party flat, \$33; two party flat, \$37; four party flat (new), \$25; four party coin box, \$18.25 (new).

## FACTORY IS CLOSED

BENNINGTON, Vt., June 6.—An attachment to enforce collection of a promissory note for \$19,000 caused the closing today of the factory of Bottum & Torrance, manufacturers of collars, shirtwaists, sheets and pillow cases and the consequent loss of employment for 200 operatives. The attachment was made by Mrs. Jennie S. Holden, mother of Arthur J. Holden, president of the company. Members of the firm said today that the company is perfectly solvent. They were unable to make any statement regarding the probable date of the re-opening of the factory.

## ROBBED Y. M. C. A. LOCKERS

BOSTON, June 6.—After being entertained at the local Y. M. C. A. as a guest from Michigan who was on his way to the London coronation, Edward Brooks of Newport, R. I., was arrested, charged with having looted the gymnasium lockers. When the alleged robbery was discovered Brooks ran and was pursued for nearly a mile by a shouting crowd of men and boys. A passerby stopped the man. When he was locked up at police headquarters gold watches, cuff links, rings of all descriptions and match cases were found in his pockets. The local association had been warned repeatedly to look out for such a robbery. Associations in the west had written that a man had robbed their lockers and was on his way east. Brooks says he was born in Richmond, Va. The man was talking to Assistant Physical Instructor James D. Langdon when it was discovered that the lockers had been ransacked. Langdon said that everyone in the building must be searched. Then Brooks bolted. The gymnasium professor dashed through the door after him. The chase led through several streets in the West End. Edward Livingston of Quincy saw the crowd coming and as Brooks shot past he grabbed the robber by the arm. In a moment Langdon had the other arm and, followed by the crowd, Brooks was taken to police headquarters.

## BRASS KNUCKLES

## Said to Have Caused Man's Death

SPRINGFIELD, June 6.—Carl Whipple, aged 32, an Austrian, was yesterday afternoon found dead in his room at 167 Bridge street. He was employed at the Highland branch of the Springfield Brewery company and before his death he told a friend that he was struck by a fellow workman who used brass knuckles. Police Inspector M. P. Costello was detailed to catch the man who committed the deed.

The body was found by Carl Lehman, an employee of the brewery, who went to see Whipple because the latter failed to report for duty at the brewery. He knocked at the door, but there was no response, and upon opening it found Whipple dead in bed.

Dr. E. C. Collins and Medical Examiner Bates were summoned and they gave it as their opinion that the blow he received over the left eye was the probable cause of death.

Curt Lehman said that Whipple got into a quarrel with his assistant, who name the police have decided to withhold, over the moving of some barrels at the brewery. The trouble, it is alleged, resulted in the assailant striking Whipple on the forehead with brass knuckles, telling him to the door. Dr. C. E. Hewitt was called and dressed the man's wound. Friday night Whipple complained of a pain in his head and went to bed. Lehman, who called on him Saturday night, found him sitting up and apparently much better.

CHICAGO WOMAN  
BLAMES LOVE FOR PURSUIT OF WEALTH

CHICAGO, June 6.—After 38 years of married life John V. Steger, a manufacturer, was made defendant yesterday in a suit for separate maintenance filed by his wife, Louise R. Steger.

Mrs. Steger declared in her bill that her husband "was so engrossed in the accumulation of wealth that it seemed entirely to obliterate from his nature devotion and affection toward her."

Mrs. Steger asserted that her husband was worth \$200,000, but allowed her only \$20 a week to clothe herself, pay doctors' bills and all other expenses, and made her do the family washing and other menial labor.

BASEBALL GAMES POSTPONED  
American at Boston.—St. Louis-Boston game postponed, rain.

American at Philadelphia.—Philadelphia-Detroit game postponed, wet grounds.

American at New York.—Chicago-New York game postponed, rain.

# THE LOWELL SUN

JOHN H. HARRINGTON, Proprietor

SUN BUILDING, MERRIMACK SQUARE, LOWELL, MASS.

Member of the Associated Press

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1910 was

15,976

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilotte, pressman, of The Sun, before me, January 2, 1911. J. JOSEPH HENNESSY, Notary Public.

North Billerica will soon be unable to take care of the large number of men to be employed there, but Lowell is close by with the most ample accommodation.

Every Sunday seems to bring its crop of auto accidents, some terrific in their fatal results. Can it be that the recent decision of the supreme court has made some drivers reckless?

Senator Lodge has seen a new light. He now announces that he will vote for the reciprocity bill. Speaker Walker's letter of remonstrance has probably helped to put the senator back on the right path.

The city council should lose no time in giving its decision on that matter of the contagious hospital site. If the members find that the site favored by the commission is not so desirable as the other, it will be necessary to rescind the vote by which the land was voted to the commission for hospital purposes and then to vote on the transfer of the other land.

## THE NATURALIZATION COURT

The large number of men who visited the court house yesterday for the purpose of getting out their first papers on naturalization shows how much a session of the court is needed in this city. As we have repeatedly stated it is an injustice to the residents of Lowell that the naturalization court does not hold sessions here more frequently. With a crowd of three or four hundred demanding their first papers, it can be easily seen that few will go to the trouble of taking their witnesses to Boston. The time has gone by when political committees can pay the expenses of witnesses and the fares to Boston, and unless the applicants are in dead earnest they will not take a day off to get two witnesses to accompany them to the court house even when the session is held in this city. Our legislators should see to it in the future that the naturalization court holds a reasonable number of sessions in this city. It is plain that two sessions in the year will not be nearly sufficient. There should be at least half a dozen in order to meet the demand for naturalization, as indicated by the large crowd at the court house yesterday.

## THE TOILERS ARE NOT IMMORAL

The case tried in the police court Saturday, although sensational and indicating bad moral conditions does not reflect at all upon the city of Lowell. It is highly creditable to the Lowell police that a case of this kind in which a young girl was lured from Haverhill by Haverhill parties was detected here within a very short time after the offenders took up their lodgings at a place where they supposed they could keep the young girl in custody without detection. The promptitude with which these parties were brought into court should be a warning to others that law breakers had better keep away from Lowell. They may be tolerated elsewhere, but certainly not here. Lowell is a clean city, in which no such iniquity as was attempted in this case can long escape the notice of the police. Although a mill city, Lowell will compare favorably with any other in the state in regard to its moral standards, and the people who work in the mills, in point of morals will stand comparison with any other class of toilers. The statement may be doubted by those who do not know the conditions and who judge of all from a few isolated cases. The immorality of a city is not found among its toilers.

## THE INDUSTRIAL SCHOOL

The school board should decide as soon as possible upon what lines of work will be taken up by the industrial school to be opened in the fall. The problem is one that will require careful study, but the state board furnishes valuable counsel and assistance. It has secured the ablest men in the country to assist in establishing and directing such schools and school boards can safely rely upon their advice.

The board will probably recommend a line of textile work by which young people will have an opportunity to advance. It is true we have a textile school with evening classes that provide instruction for mill operatives, but the industrial school would start lower and lead beginners onward step by step. The same policy will probably be followed in other lines such as the work of the shoe factory, the machine shop and some of the building trades. This school will open up new opportunities for boys on leaving the grammar school. If they choose to enter the industrial school instead of the high school the majority will probably derive more benefit from the course, provided they do not mean to go to college or enter a profession.

## NO LABOR TROUBLES

It is gratifying to find that the local contractors and carpenters have set out to settle their differences. The carpenters have been granted a 44-hour week, and will allow the demand for an increase of wages to remain in abeyance for the present. Hence the contractors can go ahead without any fear of a strike being declared that might seriously interfere with their plans. There are opportunities for securing large contracts from the Boston and Maine railroad at Billerica as well as others of a general character throughout the city. While there is any labor trouble pending, the contractors do not feel safe in going ahead so that the result of this settlement of the carpenters' demands will be beneficial to building trades generally. The contractors and the carpenters are alike to be congratulated for arriving at a peaceful solution of the difficulty. Nothing can be more detrimental to the city or to the building trades generally than a strike of any important craft during the summer season.

Let it be remembered that the Boston and Maine company will not take chances with contractors who are liable to be beset with labor troubles. The work must be done in a rush and if Lowell men want any of these contracts they will have not only to bid low, but also to show that they are at peace with the unions.

## SEEN AND HEARD

Here it is only the sixth of June and already the city clerk has issued 25 marriage licenses.

### THE LURE OF THE EARTH

Back to the land! A tired hand Of weary men, List to the cry Above the din Of the city streets, And long to renew Their youth again. For care takes wings With growing things, And Nature seeks To the boy grown old And he turns to the day When he roamed the fields, And the lure of the Earth To his heart-strings steals. "The race for gold Makes a heart old, And purchased pleasure Is only cold. For peace is found In the sky and the morn, In the song of the birds And the growing corn." George Morrill, Boston.

Capt. Peterson, before the committee on military affairs Friday evening, gave a most interesting talk on the necessity of having a plot of ground for field maneuvers. He explained the great need of training the local militia in the trenches, in teaching them how to dig trenches, make sinks, and in every way build up their camp. His remarks were very interesting, to say the least, and the captain certainly deserves praise for his talk, and for evidence of patient and painstaking study.

### FATE

A tree with deep moss' underspread Like a rug,  
A hammock, where two swing and swing sitting snug,  
And over their heads a small twig— And a bug,  
A whisper, a kiss and a clasping of hands,  
Short tawny locks mingled with fair golden strands,  
A twig—and a bug that drops softly— And lands,  
A screech, a swift movement, a swish and a swirl,  
A youth turning turtle—a vanishing girl—  
So fate grasps love's chances and gives them a whirl! —Laura N. Sheldon.

Capt. Wise of the state ordnance department of the state militia, and inspector of rifle practice, while he said at the meeting of the committee on military affairs last Friday evening that he was not a contractor, yet there are very few in this part of the state who are better acquainted with the cost of steel and iron than the captain. He has bought thousands of tons of steel for the state, and has the subject down to a science. The cap-

## If I Had Eczema

I'd wash it away with that mild, soothing liquid, D. D. Trial bottle, 25c. Relieves all kinds of skin trouble, cleansing away the impurities and clearing up the complexion as nothing else can.

Yes, I'd had any kind of skin trouble I'D USE D. D. D. Carter & Sherburne, Falls & Burkinshaw, P. J. Campbell.

## ST. THOMAS' SALVE

Is most wonderful. It cures like magic. We have more than 300 testimonials from people in this city who have been cured of all kinds of ailments. We have sold thousands of boxes. There has never been its equal on the market. For sale at all drug stores. Order a trial box. No home 25c will be without it.

## Tonic Stimulant and Appetizer

Mrs. L. J. Wright, when hardly able to move around, was put back on her feet, her appetite restored and she gained 15 pounds.

"It is with pleasure I write to tell you what Duffy's Pure Malt Whiskey has done for me. When I began taking it I was not able to do my housework and was compelled to give up dress-making. I had no appetite and was so weak that I could scarcely keep up. I have been taking Duffy's Pure Malt Whiskey since last spring and have gained about 15 pounds and am now able to do my own work, as well as dressmaking, and feel as well as I ever did. I will gladly recommend your valuable whiskey, to all who need a good tonic stimulant and appetizer.

"I have also been giving this medicine to my daughter for a cold and it is fine."—Mrs. L. J. Wright, Hopeton, Va.

## Duffy's Pure Malt Whiskey

will bring a healthy glow to the pallid cheek, give new energy to the faltering limbs, strengthen and invigorate the weary body and throbbing brain, reanimate the vital organs and create a new supply of rich, red blood. It makes the old feel young and keeps the young strong and vigorous. Prescribed by physicians, used in hospitals and recognized as a family medicine everywhere. Thousands of our patients, both men and women, who have been restored to health and strength, extol its virtues as the world's greatest tonic, stimulant and body builder.

Sold in SEALED BOTTLES ONLY by druggists, grocers and dealers, or direct, \$1.00 per large bottle. The Duffy Malt Whiskey Co., Rochester, N. Y.

tain is also an expert on militia law, and has the statutes at his fingers end, so that he can reel them off by the yard. He is perhaps one of the best read men on military affairs in the state.

## THE WINNERS OF ARTICLES ON KNIGHTS OF COLUMBUS TABLE

The fortunate winners of the very valuable articles on the Knights of Columbus table at the recent bazaar in aid of St. Margaret's parish were announced last night, and are as follows:

Remington picture, William Galvin, 535 Lawrence street; silk umbrella, Myles Stanley, 71 Otis street; carving set, Emma Knight, 22 Adams street; pastel picture, J. Murphy, Gibson street; sofa pillow, Ralph Shaw, 50

## HOW TO TREAT THE FEET.

(By Theodore Beck, M. D.)

Many men and women, and especially clerks, suffer from tired, aching, swollen and sweaty feet. Others suffer much from cold feet, or corns and calluses. This form of misery can be readily banished by the simple daily use of antiseptic vilane powder, a specific of extraordinary virtues.

Obtain two ounces of vilane powder from any leading druggist and to a gallon of steaming water add a teaspoonful and a tablespoonful of salt. Immerse the feet in this every night for a few weeks, ten to twenty minutes, and it will soothe, heal and remove all poisons and sores. Corns and calluses disappear and tired feet soon become unknown. Anyone suffering with their feet should have this knowledge. Either very hot, or very cold water should be used.

## RELIABILITY

Established 1872

## Hall's Standard Refrigerators

The good reasons why you should buy them are, that they have:

Solid oak cases, heavy smooth zinc linings, high grade construction and are clean and sanitary. The prices in different sizes are priced from \$20.00 to \$45.00.

If the price is lower, the quality is not as good.

M. Flanagan.

## CHARITY BOARD

APPROVED MONTHLY BILLS AT MEETING LAST NIGHT

The board of charities met last night and approved a large list of monthly bills. All the members were present.

## MATRIMONIAL

One of the prettiest weddings of the season was that which took place last night at St. John's Episcopal church in Gosham street, the contracting parties being Miss Eva Lydia Young and Mr. Maurice George Perkins, Harvard '06, formerly of this city, but now of Gardiner, Mass. Both Mr. Perkins and his bride are well known in this city, the former having come into prominence as an athlete while attending the local high school, while the latter is one of the prominent young ladies in local society.

The bride was attended by Miss Alice M. Baxter of Boston as maid of honor and the bridesmaids were Miss Gladys Jewett and Katherine O'Donnell. She was given away by her uncle, Mr. Freeman N. Young of Boston. Mr. Harold H. Jewett was the best man.

The marriage ceremony was performed by Rev. James Bancroft, the single ring service being used. The wedding march when the couple entered and left the church were played by Mr. Clayton Kimball.

The interior of the beautiful little church was decorated in an elaborate manner, palms and pink roses predominating.

The bride was attired in white crepe de chene with long court train and wore a white tulle veil caught with lilies of the valley, and carried a shower bouquet of lilies of the valley. Miss Baxter was charming in pink marquisette over pink messaline with pearl trimmings. Misses Gladys Jewett and Katherine O'Donnell both wore white chiffon over pink messaline, trimmed with point-au-venise lace, and wore white silk over pink caps and carried bouquets of shell pink sweet peas. Mrs. C. W. Young, the bride's mother, wore black chiffon over white messaline, and Mrs. Perkins, mother of the bridegroom, gray chiffon over gray messaline.

At the conclusion of the ceremony the couple repaired to 355 East Merrimack street, where a reception was held. The interior of the house was decorated in a beautiful and artistic manner in green and pink. There was a large number of invited guests from this city and out of town in attendance.

A collation was served and music was furnished by Hibbard's orchestra. The ushers at the church and house were: Mr. Victor F. Jewett, Mr. Herbert W. Hume, Mr. John C. Leggett, and Mr. Willard Morrison.

The bridegroom's suit to the bride was a beautiful lavender, enamel brooch and to the ushers abalone pearl scarf pins, and the attendants of the bride received bar pins of brilliants and pearls as remembrances from her. After the reception Mr. and Mrs. Perkins left on an extended wedding tour, after which they will take up their residence in Gardiner, Mass., where the bridegroom is manager of the N. B. T. & T. Co. exchange.

## DIAMOND STOLEN

### Daring Robbery in a Local Jewelry Store

One of the most daring daylight robberies that has occurred in this city for years took place the other day when a man who appeared to be between 33 and 35 years old, entered the store of George H. Wood, wholesale and retail jeweler, at 137-151 Central street, and asked to be shown some diamond rings. While examining the stones he managed to substitute a ring with a stone valued at about \$25 for a clear white stone in a Tiffany setting which was worth \$500. The man made his escape and although the police have been notified, the latter have no clue to work upon and the man is still at large.

It is expected that the thief is a past master in the art of stealing diamonds and may be the same person who has successfully worked his game in Delaware and Pennsylvania of late. The loss of the stone was due to the carelessness of a young man who had been in the employ of Mr. Wood for about a year and who was not supposed to handle the diamonds.

The loss of the ring was not discovered until closing time at night when Adolbert H. Abbott, the diamond man, looked over the trays, as is his usual custom, and found the valuable stone missing.

It was about noon when a stout, good looking man, entered the store and approaching the young man stated he had been referred to the store by a storekeeper on the other side of the street and asked to be shown some engagement rings. He was shown some plain rings but stated that he wanted to see some diamonds, and the clerk taking a tray which was on a revolving table in one of the windows placed it on the counter for the man's inspection.

The man picked out one ring after another and finally stated that he

would go and see the girl and bring her over in order that she might make a selection.

It appears that while the clerk was showing the man the rings the former's attention was attracted to something which was happening in another part of the store and undoubtedly the slick one substituted the \$25 ring for the \$500 stone.

When Mr. Abbott went to place the trays in the safe at night he found the big stone missing and the following morning reported the loss to Mr. Wood with the result that an investigation was made and the young man in question admitted that he had shown the tray of rings to a strange person.

In conversation with a representative of The Sun this noon Mr. Wood stated that he had instructed his clerks not to handle any diamond rings, that he and Mr. Abbott were the only persons who had authority to do so.

#### WOMAN FINED

FOR FAILING TO SEND CHILD TO SCHOOL

BOSTON, June 6.—For failing to cause a child claimed to be under her control to attend the sessions of the Hodgkins Grammar school in West Somerville, Mrs. Hattie Boyer of 7 Belknap street was arraigned before Judge Wentworth in the Somerville court yesterday on complaint of Trust Officer Benjamin R. Jones. She was fined \$10, but sentence was suspended until June 19 in order to give her an opportunity to pay the fine.

If you want help at home or in your business, try The Sun "Want" column.

## A Slick Job of Bridge Work Nearly Completed

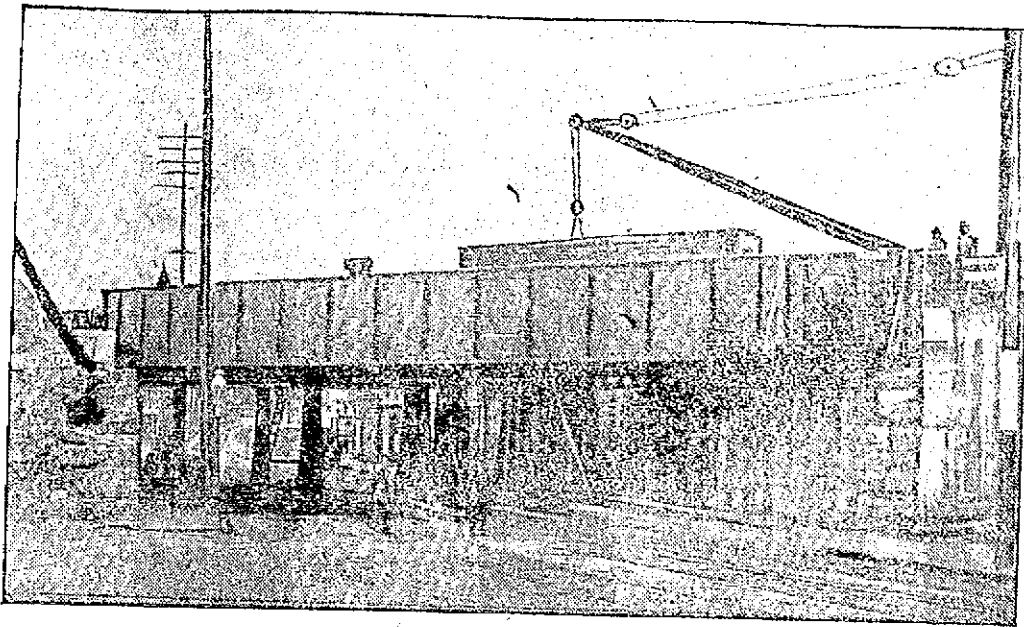

Photo by Will Rounds.

NEW RAILROAD BRIDGE OVER GORHAM STREET.

Structure of Iron and Reinforced Concrete That Will Endure a Lifetime Successfully Constructed Without Delay to Traffic or Accident

Today's rainstorm caused the first delay on the work of the Gorham street bridge, excepting when the iron work was being awaited, since the job started and the job has been most remarkable because of the fact that notwithstanding that the bridge is on the main line and within the limits of the Lowell freight yard, over which passenger and freight trains are passing every few minutes for 24 hours in the day, there has not been an hour's delay as the result of the work or a change in the running time of any trains. There are five sets of tracks on the bridge, two have been relaid, and work is nearly completed on the third. Had it not been for today's rain the temporary wooden supports in Gorham street, under the bridge which have caused the electric cars to run on a single track under the bridge, would be removed next Saturday, and the double track service resumed on Monday. As it is the company is confident that everything will be in readiness by June 15, when the circus comes.

The old bridge was remodelled for the purpose of strengthening it and meeting the demands of progress. In the old days the iron work rested upon the stone abutments and there were three iron stringers for support. Now the iron work rests on reinforced con-

crete built up behind the stone abutments, the latter being but a front for the new abutments. The bridge has been raised six inches to allow big wagons to pass under it while the Hinchey station has also been raised to meet the requirements of the new bridge. There are now six iron stringers supporting the bridge instead of three as formerly, and the construction is such as to defy the effecting figure of Time and last almost forever. To do the work without interfering with traffic was quite a problem, but the engineers solved it by doing one section of line of tracks at a time, leaving the other parts open for traffic, propping up the entire structure with huge wooden beams extending from the street up to the bottom of the bridge. To make assurance doubly sure, experienced yard men headed by Mr. E. L. Barnes were placed at either side of the bridge day and night and they caused every train to slow up almost to a standstill in crossing the bridge. The result has been that there have been no noticeable delays in traffic.

Down on the street below on account of the wooden supports to the bridge, the Boston and Northern was compelled to put in switches and shift

their cars to a single track in going under the bridge. The street railroad also used due care by stationing men at either side of the bridge to assist the working crew of the different cars in making the cross-overs. As a result there have been few delays on the Gorham street line and no accidents. It has been a clever job of headwork as well as mechanically and when once completed will not engage the attention of the road again for many years.

#### MARRIAGE INTENTIONS

Despite the inclement weather the June weddings are to proceed. Today's intentions are as follows: Thomas Golden, 220 Broadway street, 2d section, to Mary Donohue, 32 Winneat street, 23, at home. Paul F. Farham, 23, South Walker street, 2d, clerk, to Emily B. Weigley, 32 Lane street, 24, bookkeeper. Paul C. Exner, Mechanicsville, N. Y., 26, barber, to Dorothea L. Vayo, Rockingham, Vt., 29, clerk. Thomas McCarthy, 271 Fletcher street, 27, operative, to Annie Iglas, 19 Varum street, 25, housework.

MORTIMER SNOW AT THE MERRIMACK SQUARE THEATRE.

#### MERRIMACK SQUARE THEATRE

The Merrimack Square theatre was crowded to the doors last evening the friends of Clarence Wilbur, a Lowell boy, turning out in large numbers to greet him. He made a great hit with the audience, and received a great "hand."

Mr. Wilbur is an excellent comedian. His act is a decidedly good one and he tells good stories and sings funny songs. He was obliged to respond to several encores last night.

Mortimer Snow and Co.'s act this week is a pretty playlet, entitled "In the North." It touches on the life in northern Canada.

The aged father of a young girl who is being educated at Montreal is obliged to give up his extensive holdings of land because of the lack of funds and this leaves him practically penniless. The daughter returns home to find that he has taken up his home in one of the cabins out in the wilderness that is owned by a sweetheart of former days. The daughter is not at first acquainted with the financial condition of her parent but it is all disclosed to her when she overhears a conversation between him and the owner of the cabin. The latter partly out of pity for the old man, but mostly because of his love for the girl, offers to carry the father through his financial straits and through the proposed arrangements the trio are made happy in the thought of the young couple's future marriage. Mr. Snow as "Timber Joe," the young Canadian, and lover of the daughter makes a likeable character of the part to which he is assigned. His broken English dialect is cleverly done and his acting is of the best. Miss Anderson is again seen to advantage as the daughter of the old Canadian land owner, and together with Mr. Snow carries the brunt of the piece in a most acceptable manner. Mr. Boshell, the father, is entirely adequate. The scenic effects are a pleasing feature of the presentation, and add greatly to the success of the performance.

Prof. Dodd and his talking dog, Fido, is an entertaining number. The animal displays more dog intelligence than any canine that has yet appeared on a local stage. His stunt of selecting certain playing cards from the many strewn about the stage, as they are called by members in the audience is one of the many wonderful tricks that he performs with characteristic skill. Miss Grace LaVelle, vocalist, is heard in several excellent selections. The daylight motion pictures include many enjoyable features. They include high class drama, presented by actors and actresses of world-wide reputation, as well as a series of comedy presentations that are especially enjoyable.

## FAVOR ARBITRATION TREATY

BOSTON, June 6.—A statement given out at the headquarters of the World's Peace Foundation here today says:

"The World's Peace Foundation has received strong resolutions endorsing President Taft's negotiation of the unreserved arbitration treaty with Great Britain from 138 of the leading boards of trade and chambers of commerce in the United States, and every mail is bringing similar resolutions from other commercial bodies. Many of them are accompanied by warm and earnest personal letters from the presidents or secretaries of the various organizations. These bodies represent the almost unanimous sentiment of the leading business men of their several cities and the cities already thus heard from have a combined population of 19,000,000. The resolutions and many of the accompanying letters will be forwarded to the foreign relations committee of the senate."

If you want help at home or in your business, try The Sun "Want" column.

## AVIATOR BAGUE

Probably Was Lost at Sea

NICE, June 6.—It appears more probable that Lieut. Bague, the French aviator, had met the fate of Cecil Grace, the Englishman who was lost in the North Sea while attempting a flight from Calais to Dover last December. Lieut. Bague, who holds the over-sea flight record, left Nice on his aeroplane this morning for a trip to Corsica. The distance between the two points is a little more than 100 miles, and when nothing was heard from him torpedo boat destroyers were sent out to search for him.

The destroyer Arbalète returned last evening from Corsica and reported that it could find no trace of Bague. Other naval vessels are continuing the search, but it is feared it will prove fruitless. The aviator took carrier pigeons with him, and it is supposed that the aeroplane capsized so suddenly that he was unable to get them loose. The Arbalète left again for Corsica at a late hour to make a further hunt by means of searchlights.

#### INDIAN CHIEF

GETS LICENSE TO MARRY A WHITE GIRL

BOSTON, June 6.—Chief Wolf Wana, a full blooded Indian from Pueblo, Colo., who is making his home at 11 Temple street, ward 8, a few doors from the Hendricks club was one of the applicants yesterday for a marriage license at the city registrar's bureau.

Wana's bride is to be Loretta Colombo, whose home is in San Antonio, Tex. According to the applicant for the license, the young woman is 19 years old and her occupation is "at home." Her father and mother were both born in this country.

Wana is 31 years old and makes his living as an artist. His father's name is Petro Wana and his mother is Luliza Wana. Both are full blooded Indians and live in Colorado.

If you want help at home or in your business, try The Sun "Want" column.

## RIOT RIVEN MEXICO DEPENDS ON DARING RURALES, MOUNTED CONSTABULARY, FOR ORDER

RURALES GUARDING MEXICO CITY

MEXICO CITY, June 6.—Fatal riots have become the order of the day throughout Mexico. The change in government has given hundreds of bandits, terming themselves either "Maderistas" or "insurrectos," the opportunity to loot houses and stores in at least a dozen cities and towns. Mexico City is greatly alarmed over the uncertain conditions that have arisen. The city is said to be in greater danger of looting than at any time since the Madero

uprising began. While the federal soldiers have been detailed to guard the city and preserve order, the active bandits are one of the chief dependencies of the governmental authorities in preventing rioting. The rurales are mounted constabulary, by heavy guards of local government troops. There is said to be less government now in Mexico than thirty-five years ago before Diaz came into power. Mounted police put down serious riots at Santa Julia after killing two

hundred or more. Nine street cars were completely wrecked, windows smashed and sides broken in. All the roads leading to this city are patrolled by heavy guards of local government troops. There is said to be less government now in Mexico than thirty-five years ago before Diaz came into power. Mounted police put down serious riots at Santa Julia after killing two

hundred or more. Nine street cars were completely wrecked, windows smashed and sides broken in. All the roads leading to this city are patrolled by heavy guards of local government troops. There is said to be less government now in Mexico than thirty-five years ago before Diaz came into power. Mounted police put down serious riots at Santa Julia after killing two

hundred or more. Nine street cars were completely wrecked, windows smashed and sides broken in. All the roads leading to this city are patrolled by heavy guards of local government troops. There is said to be less government now in Mexico than thirty-five years ago before Diaz came into power. Mounted police put down serious riots at Santa Julia after killing two

# AUTOMOBILE NEWS

## BUSINESS QUIET

Local Auto Dealers Had a Dull Week

BUT ANTICIPATE BETTER BUSINESS LATER

Majority of Dealers, However, Report a Brisk Business Up to Date—Repair Work at Local Garages is on the Increase—Too Many Automobile Accidents Due to Intoxication and Joy Riding—Other Automobile News

The sales of automobiles by Lowell dealers during the past week were not so large as might be expected, for the number sold was comparatively small. It may have, however, been one of those dull weeks that are apt to be encountered in any business and inasmuch as nearly all of the dealers have what they consider good prospects on hand but few of them are willing to admit that the best part of the season for sales is over. The repair work has been brisk during the week and the dealers are looking forward to many more weeks of numerous sales in the future.

Arthur G. Beharrell of the City Hall garage received a telegram today to the effect that three Velle cars have been entered in the Poland Spring (Maine) hill climb to be held next week. Two of the cars are regular stock machines while the other is a special machine. Mr. Beharrell, who is agent for the Velle, was well satisfied with the showing of the Velle car in the Speedway races at Indianapolis last Tuesday.

Mackenzie and Bryant, agents for the Maxwell and Columbia cars, who

heretofore have been located at 604 Middlesex street, are now comfortably located in their new and commodious garage in Howard street, near the corner of Middlesex street. Despite the fact that they moved into their new quarters but a few days ago everything is in fine shape, and they will be better able to handle their increasing business.

The macadamizing of roads throughout the eastern part of this state together with the proposed improvement of streets in Lowell and other cities in this section comes as good news to the automobilists.

The Moody Bridge garage, located at the corner of Pawtucket and Moody streets, has done an excellent business so far this season and there is little doubt that this year will be the banner one in the history of the garage. The Oakland car, handled at the garage, has become one of the most popular cars in the city and those who have purchased automobiles of that make are well satisfied. The Knox, which is a higher priced car, has attracted the attention of many motorists and a number of purchases of that make of machine have been made. The Jackson car, for which the owners of the garage are agents, has also pleased many people. Messrs. Joseph Martin, S. L. Rochette and H. S. Girard, of the firm, have done everything in their power to please their customers and the result is that people who purchase machines at the Moody Bridge garage are well satisfied with the treatment they receive. Mr. Arthur J. Cummings, the bustling salesman of the garage, besides selling cars in Lowell, has sold many in Lawrence, Mass., and Nashua, N. H. The repair department is well equipped with the most modern machinery obtainable and is managed by thoroughly competent mechanics.

For some reason or other the sale of commercial vehicles in this city this year has not been so large as was anticipated by the local dealers. One of the reasons may be that there is a much smaller profit in the sale of commercial wagons than in the sale of pleasure cars and again it may be said to be due to the fact that a prospec-

tive purchaser has to wait too long for the commercial car to be delivered.

Many local people enjoyed delightful rides in the country or touring the beaches in Edmond H. Mercier's cars during the past week.

Several local dealers who submitted bids for an automobile for the Middlesex Training school in North Chelmsford are wondering when the commissioners are going to make an award.

A high powered automobile in the hands of an intoxicated man is a terrible weapon of death, for a slight twist of the wrist or the skidding of the machine is liable to cause a fatal accident. While there have been but few accidents in Lowell as a result of joy riding, there are more than should have occurred, especially on the Pawtucket boulevard where the drivers of machines who have imbibed too freely are wont to test the high rate of speed at which their cars can travel. It is not very long ago that one of the world's most famous automobile racers drove a party in his high powered machine at such a rapid rate of speed down the boulevard that he got bewildered and crashed into a telegraph pole in Varnum avenue with the result that several of the members of the party were taken to the Lowell General hospital suffering from broken limbs. Joy rides are usually taken

during the latter part of the night or early in the morning when the lights form shadows that the driver going at high speed mistakes for obstructions in his path and in avoiding the shadow he strikes something real.

Dr. William P. Lawler of Nesmith street has purchased a model 14 Buick through the agency of the Lowell Automobile corporation. The model 26 Buick which was recently purchased by Dr. Frank G. Gilliland, the dentist, was delivered to him last Tuesday and a similar car purchased by Frank H. Putnam, the produce dealer, was also delivered last week.

George H. Moulton of Lawrence purchased a model 33 Oakland touring car at the Moody bridge garage this morning. It is expected that the car will be delivered within a few days.

Mr. C. K. Fox, the well known Haverhill shoe manufacturer, was in Lowell on business today. As is usual he came over the road in his Packard machine.

One of the most elaborate automobile show rooms in New England is that of the Lowell Automobile corporation in Appleton street and besides the excellent trimmings, paintings and general finish of the interior of the room there are half a dozen cars of different models of the Oldsmobile and Buick which attract the attention of prospective purchasers of automobiles. Manager Fred L. Emerson reports a very successful season both as regards sales of cars and work done in the spacious repair shop. In conversation with the automobile editor of The Sun he said that his success was due to the fact that he carried nothing but standard cars which speak for themselves, competent salesmen and a well equipped repair shop, which is a hard combination to beat.

## Carnegie Medal for Speedway Hero?

A KNIGHT WORTHY OF THE HERO MEDAL.

(Driver Knight saved his car to certain disaster rather than run over a fallen mechanic.)—Account of Motor Race.

Petitions are in circulation asking that a Carnegie hero medal be awarded to Harry Knight, the auto driver who risked his own life and that of his mechanic and sent his Westcott car to disaster at the Speedway in Indianapolis a week ago today rather than run over C. L. Anderson, a mechanic, who had been thrown from a Case car driven by Joe Jagersberger.

Among the names already attached to the original petition are Fred J. Wagner, A. R. Partridge, referee and starter; Carl G. Fisher, A. C. Newby and C. E. Stuart of the Speedway company; E. Moore, Robert Norman, William Knipper, Joe Matson, Thomas J. Metzger, F. E. Muskovic, Walter Jones, William Endicott, John Jenkins, Charles Arnold, Harry Endicott and H. C. Lathrop, J. J. Cole and Will H. Brown, judges of the race, and Charles F. Henderson, president of the Henderson Motor Sales company, distributors of the Westcott car.

Dr. H. R. Allen, the physician in charge at the Methodist hospital where Knight and Glover, his mechanic, were taken, said:

"If there ever was a hero, Knight is one. He preferred to jeopardize the lives of himself and his mechanic rather than kill a helpless man on the track. Knight also tells me that had he not locked his rear wheels he could have not only killed Anderson, but he would have sent into the Case car, and without a doubt other on-rushing drivers would have figured in what might have been one of the worst wrecks in automobile racing history. I saw Knight's heroic action. Both he and Glover are seriously injured, but neither is in a dangerous condition."

Second Heroic Act For Knight—Knight was one of the toughest pilots named for the 500-mile race, and owned the car that he drove. This is the second time that Knight has acted quickly and saved a human life. On the day before the Palm Beach race at Philadelphia last October the mechanic on a Mercer car was thrown from his car on one of the turns, and Knight, a few yards behind, turned his Westcott car into the fence and brought up in a field.

In the event at the Speedway Knight risked the life of John Glover, his mechanic, as well as his own, and wrecked Herb Lett's Anderson and crashed into Eddie Pearce's Fiat. Knight said yesterday that he counted his head striking the ground three times, and after being buried over the heads of a group of spectators he says

he remembered everything connected with the accident.

Both Knight and his mechanic, Glover, are resting easy at the Methodist hospital. C. L. Anderson, the Case mechanic, left the hospital the other day for his home in Racine, Wis., and Arthur Greiner, the Chicago boy who was injured in the Amplex accident early in the race has left for Chicago. Greiner was in good spirits and made light of his injuries. He walked with a crutch and his left arm was bandaged, but he asserted that he would be back in the game driving race cars within a month. Dave Lewis, Fredy, Teckall's mechanic, who suffered a fractured hip, is feeling easy, and Joe Moran and Walter Bardell, who figured in practice accidents, were in good spirits and joked about the few survivors left in the "survival of the fittest" ward.

THE GLIDDEN TOUR  
EVERYTHING IN READINESS FOR ANNUAL EVENT

The next big event on the motor calendar is the Glidden tour. This is slated to begin at Washington on June 21 and finish at Ottawa about a week later. New England is particularly fortunate in its share of the tour this year, for the motorists will pass through sections of Connecticut and then shoot into Massachusetts.

On the way from Springfield to Boston the hill climb, which has been added, will be held on Dead Horse hill, just outside of Worcester. Then the tourists will continue on to Boston. There will be a stay here over Sunday and the route will be resumed crossing New Hampshire into Vermont.

This means that Springfield will have the tourists one night; Worcester will have them the greater part of a day with the climb, and Boston is to have them two nights and a day. That is more than any other state gets and it is a tribute to the industry here. As a result some effort should be made to make the stay on Sunday a pleasant one.

The entries closed last Thursday, but they have not been announced yet. This is a different policy than what was adopted in other years when the entries were made known from week to week. Somehow or other it seems as if there is no desire on the part of the officials to give the tour the real publicity it deserves. The notices sent out by the press agent has not contained anything of real news value, but it is not his fault.

Present indications are that the entries are not so very numerous, and an effort is being made to create interest

enough to get non-contestants to join the run. It would be a splendid trip for motorists who wish to take advantage of a scenic tour, but there is no need of entering it. The officials have stated that in the interest of not violating the speed laws non-contestants will not be allowed to pass the pace-maker at any time. That sounds all right, but if anyone wants to enjoy side trips and get in ahead in time to wash up, then he wants to go along as a mere motorist not affiliated with the tour. Newspapermen, that is perhaps a few of them, will not trail behind any official car unless they feel like it. For the sake of the industry every one who has the interest of motoring at heart will sincerely hope there will be a lot of entries and the tour will be a big success.

## "JOE" RAYMOND

Well Known Colored Man is Dead

Joseph B. Raymond, aged 63 years and 10 months, died last night at his home, 10 Concord street. The deceased was one of the best known colored men of this city, where he has made his home for the past 36 years. He was familiarly known as "Joe," and was universally popular for his geniality.

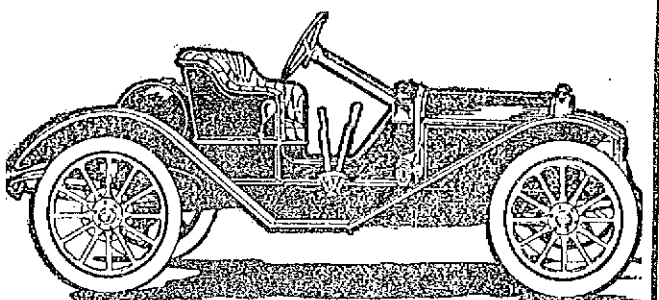

Mr. Raymond was born into slavery at Georgia. He made his way north during the war and settled in Lowell.

He is survived by his wife, Mrs. Clara E. Raymond; two daughters, Mrs. Addie E. Banks and Miss Lucy B. Raymond; and one son, Charles S. Raymond, now of Richmond, Va. He also leaves three sisters, Mrs. Elizabeth Lovejoy of Greenville, Ga., Mrs. Nancy Martin and Mrs. Maria Howard of Atlanta, Ga., and a brother, John Rector of Atlanta. That the brother's name differs from Mr. Raymond's is due to the exigencies of slavery days.

## PIANO RECITAL

A well attended and delightful piano recital under the auspices of the pupils of Miss Harriette G. Lee, assisted by Miss Gladie Smith, was held in Middlesex hall, Saturday afternoon. One of the features of the recital was the demonstration of the merits of the Faelton system, the pupils playing the different numbers in any key requested by their friends in the audience.

## THE 100% AUTOMOBILE

The Oakland Automobile is such. It has a 100 per cent goodness.

This 100 per cent stands for a design that has proven correct in every detail, materials that have enduring qualities. Graceful bodies and beauty of finish that will satisfy the most exacting buyer.

This 100 per cent stands for medium weight, and that distributed correctly. Medium weight brings your tire expense down to the minimum.

This 100 per cent stands for as much power as you will ever want to use or need. But this power is always under your control. Oaklands idle along at 4 miles an hour or you may go as fast as you want, all to your choosing.

This 100 per cent stands for a record of performance that justifies our claim of superiority. Oaklands have been victorious in competition with the best American cars. This superiority has been proven by the severest tests, that of hill climbing.

This 100 per cent stands for exclusive features, features of accessibility and simplicity.

We want an opportunity to prove these claims. They may seem extravagant to you. So call on us for a demonstration and allow us to go over the Oakland line with you.

## JOHN DILLON HURT

JOHN DILLON, M. P.

## Irish Leader is in a Serious Condition

DUBLIN, June 6.—John Dillon, Nationalist member of parliament for East Mayo was dangerously injured about the head and back in an automobile accident last night near Dundalk, 45 miles northwest of Dublin.

It was at first thought that Mr. Dillon was dying and a priest hastily summoned administered the last sacrament. He rallied, however, and was removed to Dundalk, where he now lies in a hospital in a serious condition.

The automobile dashed into a culvert and Mr. Dillon was thrown through the glass screen.

Although his condition is serious, Mr. Dillon's relatives have good hope of his recovery. They will not permit the removal of the patient from Dundalk for several days.

Mr. Dillon suffered a severe concussion of the spine, which deprived him temporarily of power over his limbs. He also suffered a severe cut in the forehead which required several stitches.

## IN POLICE COURT

## The Docket Today Was Quite Brief

Charles Randlett of 16 Nichols street was charged with being drunk and Patrolman David Petrie who made the arrest testified that the defendant had been annoying a young woman for several nights. The girl was brought in to court and after being sworn testified that the man had followed her on two different occasions and last night approached her and made a remark which she resented. She reported the matter to the police with the result that Randlett was placed under arrest.

admitted that he had spoken to the young woman but said he was under the influence of liquor at the time and mistook her for a person whom he knew. The court ordered him to pay a fine of \$10.

## Felonious Assault

Wells P. Kelly was arraigned before Judge Hadley in police court this morning on complaints charging him with felonious assault on Annie Fine, a girl who had been stopping at his house. Through his counsel, J. Joseph Hennessy, pleas of not guilty were entered and the case was continued until tomorrow, the defendant being held under \$300 for his appearance at that time to answer the complaint.

## Drunken Offenders

Alexander Foucher was charged with being drunk and admitted his guilt. According to the arresting officer the man had been on a drunk for three weeks and inasmuch as Foucher had little or nothing to say in his own behalf he was sent to jail for ten days in order that he might sober up.

Patrick Casey, after being found guilty of drunkenness, was sentenced to two months in jail.

William McGuinness and George Gill, drunks, were fined \$6 each, two first offenders were fined \$2 each, and several simple drunks were released.

Patrick Curtin was sentenced to the state farm at Bridgewater.

**JOHNNY GALLANT**  
PUT EGAN AWAY IN THE SIXTH ROUND

WOBURN, June 6.—Johnny Gallant of Chelsea beat Joe Egan of South Boston in the sixth round of a bout scheduled to go 10 at the Woburn A. A. meeting in Lyceum hall last night. It was a fast contest from the start but in the sixth Gallant put a right to Egan's jaw and sent him down.

Egan was slow in rising and Referee Martin Clougherty awarded the match to Gallant.

Mickey Brown of Malden was awarded the decision over Young Henderson of Medford in eight rounds. Young Sullivan of Somerville and Young Kenney of Wakefield boxed six rounds to a draw and Young Murray of Beverly beat Young Cronin of Woburn.

**TEAGUE'S BOUT**  
NEWPORT, R. I., June 6.—It was a naval night with the Perry A. C. last night and the main bout between Tommy Teague of the battleship Michigan and Abe, the newsboy, of New London, was Teague's in every particular. One of the preliminaries between Kid Lambert of Fort Adams and Eddie Doyle of the naval training station was stopped in the first round because the men were not evenly matched.

**MRS. HIBBARD**  
WIDOW OF FORMER BOSTON MAYOR MAKES STAGE DEBUT

BOSTON, June 6.—A large house witnessed the debut of Mrs. George A. Hibbard, widow of former Mayor Hibbard, at the Majestic theatre last night. Every part of the house was

WHAT  
I WENT  
THROUGH

## Before taking Lydia E. Pinkham's Vegetable Compound.

Natick, Mass. — "I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it had worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—MRS. NATHAN B. GREATON, 51 N. Main Street, Natick, Mass.

The Change of Life is the most critical period of a woman's existence. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

The testimonials which are constantly being published in these advertisements are guaranteed to be absolutely genuine.

## DARTMOUTH MEN

Say That They Were  
Assaulted

HANOVER, N. H., June 6.—Charges of aggravated assault were filed here last night by three Dartmouth students against four Hanover men who will be arraigned in court. The students are H. C. Bond of Malden, Mass., T. W. Salmon of Woburn, Mass., and E. C. Castle of Quincy, Ill.

The students were on their way to Hanover early yesterday from the Norwich, Vt. station and they claim the four men brutally attacked them with clubs near the bridge which connects the two towns.

The alleged assault it is said was due to a general dislike for the students. The Hanover men gave the names of Willard, Kibbie, Gibson and Kendall.

Salmon sustained two broken fingers and the other two Dartmouth men were badly bruised about the head and face.

## THEATRE VOYONS

Today's feature comedy at the Theatre Voyons is "A Case of Deception" in which the leading actress, Miss Florence Lawrence, wears most charmingly a Harlem gown. Playing with her in the comedy is Arthur Johnson one of the most popular picture men

and between them they make plenty of laughter. The dramatic feature, "Cain and Abel," is a strong and forceful drama of city life and in which a young man is set right in life through the efforts of a Salvation Army lassie. There are other hits on the program, notably "The Rose of St. Augustine" and a brace of finely rendered illustrated songs.—Adv.

## TREATY CHANGE

Is Sought by Premier  
Laurier

LONDON, June 6.—At the imperial conference yesterday Sir Wilfrid Laurier, premier of Canada, gave notification of his intention to introduce a resolution with a view to obtaining liberty for any dominion of the empire to withdraw from the operation of any treaty made by the government without impairing the treaty in respect to the rest of the empire.

A resolution for uniform navigation laws throughout the empire and the employment of British seamen in British ships was adopted.

The Rt. Hon. Sydney Buxton, president of the board of trade, proposed that the dominions co-operate with the government in the use of the recently organized labor exchanges to fill vacancies in the colonies. Premier Laurier opposed this on the ground that it would cause friction between Canadian employers and employees.

## PROF. KIRK ACCEPTS

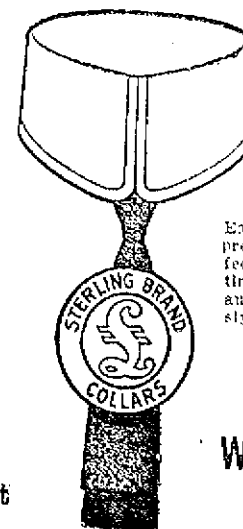

PROVIDENCE, R. I., June 6.—Prof. William Kirk, associate professor of social and political science at Brown university, has accepted the chair of economics and sociology at the University of Rochester and will enter

upon his new duties on July 1 when he will also take up the work of general secretary of the United Charities of Rochester, which he accepted last March.

If you want help at home or in your business, try The Sun "Want" column.

## STERLING COLLARS

2  
FOR  
25c

There is no brand of collars that can compare with the Sterling for Quality of Material and Workmanship. It is constructed to withstand the hardest wear of the laundry and everyday usage. Each collar is carefully pre-shrunk to insure perfect and uniform fit at all times. Stylish, shapely and built to retain its style and shape.

# STUDENT BURNED OF INTEREST TO WOMEN

## He Probably Will be Marked for Life

### Acid Thrown on Him Reached His Face—W. H. Crapo Alleged to Have Thrown the Acid—Young Men Went to Call on Manicure Girls

BOSTON, June 6.—Donald H. Clark, a Harvard student, will probably be marked for life as a result of an adventure early Sunday morning attending an escapade of a quintet of Harvard men in the South End. Sulphuric acid was thrown over him from a cup, a quantity of it striking him on the side of the face, running down his neck and burning it and also his chest. Wincing in pain he was taken to the hospital.

## PESTS AND PARASITES

GYPSY-MOTH LARVAE PREVENTED FROM ASCENDING THE TREE BY A BAND OF TREE TANGLEFOOT.

This is one of the efficient means of control, and especially for the protection of trees adjacent to infested territory.

(This picture and comment reproduced by courtesy of the "National Geographic Magazine," Washington, D. C. Copyright 1911.)

An article in the April number of the "National Geographic Magazine," of Washington, D. C., entitled "Pests and Parasites," gives startling figures on the damage insect pests cause to trees and plants. It urges the necessity of national inspection of all imported plants and trees. The Gypsy and Brown-tail moths imported into Massachusetts have cost that state many millions of dollars and killed countless trees which it will take generations to replace. These pests are spreading all over New England and Northern New York, and there is great danger of their overspreading the entire country.

The article contains several photographs of actual conditions, illustrating the best means of control, one of which we reproduce above, showing a mass of caterpillars crowded below a band of Tree Tanglefoot, which effectively prevents their ascending the tree. They will soon starve below the Tree Tanglefoot, being unable to reach the leaves—their natural food. The banding compound, Tree Tanglefoot, is especially effective against the moths named and also Tussock moths, which greatly injure shade trees in all the states bordering on the Great Lakes.

One application of Tree Tanglefoot is sufficient for the season, as it will remain sticky about three months fully exposed to all weather conditions; ten to twenty times as long as any other known substance.

Tree Tanglefoot is now practically the only banding compound used, its superior lasting qualities having made it universally preferred.

Its advantages over bands of burlap or cotton batting are, that it gives absolute protection where other bands give only partial protection and require daily inspection, and, in the case of burlap especially, the killing of caterpillars which have congregated below it—a most disgusting task.

It also has a great advantage over spraying, in that, being non-poisonous, neither the trees themselves nor the birds which may eat of their berries, fruits or seeds, are poisoned. Birds are an important factor in destroying injurious insects.

It is now believed by some horticultural and entomological authorities that continuous spraying of trees results in their being gradually poisoned, the poison being found in the wood, the leaves and the fruit, apparently absorbed by the sap and carried to all parts of the tree.

In the hands of the amateur, Tree Tanglefoot is the safe preventive, as spraying must be done by experts, else immediate and serious injury may result.

Tree Tanglefoot is put up in one, three, ten and twenty pound cans, ready for use. It is easily applied with a small wooden paddle or putty knife. Full directions appear on each can. The price is 25c to 30c per pound. Each pound will make about nine linear feet of band.

Tree Tanglefoot is made by The O. & W. Thom Company of Grand Rapids, Mich., the manufacturers of Tanglefoot fly paper, which is used in every village and hamlet in the United States and Canada, and has also an extensive sale in every civilized country in the world, having been the standard in quality for 25 years. Tree Tanglefoot is as much superior to all other tree banding compounds as Tanglefoot fly paper to all other fly papers. In case local seed dealers or druggists have not yet a supply of Tree Tanglefoot, this can be obtained directly from the manufacturers.

Government, state, city and village authorities now use 50 per cent. to 90 per cent. of the Tree Tanglefoot manufactured, but its use by private individuals to care for their trees is increasing rapidly because it affords protection for the least cost and is the safest and simplest remedy against Gypsy, Brown-tail and Tussock moth caterpillars.

A COLLECTION OF THE SEASON'S FASHION FREAKS

These show from left to right the new pointed train, two new harem dresses, one with the new head latticework effect, the other with the short in front and long in the back effect; and a short waisted empire tunic dress with the new split skirt.

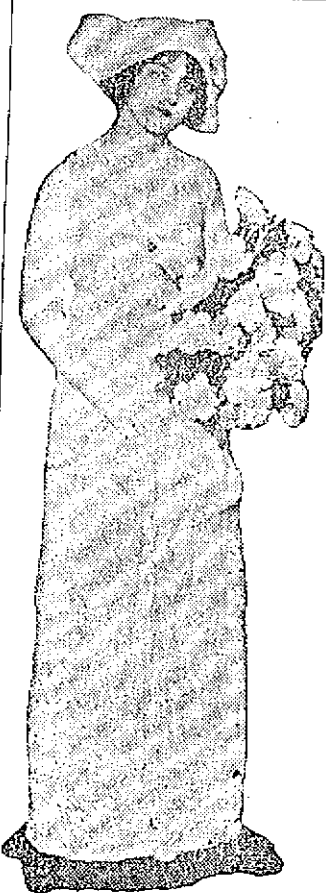

Photo by American Press Ass'n.

### BRIDEAID'S FROCK

This stunning brideaid's dress is of pale blue satin charmeuse, the skirt being of chiffon, shirred into a tight hem. Notice the corsetless, short waisted effect. The hat is one of the newest shapes. It is made of white lace straw and blue ribbon.

### CLEVER WOMEN

WHO ARE MAKING A SUCCESS OF THEIR BUSINESS

A clever Illinois woman is Miss Ella Haas, who is deputy state factory in-

pector. Her activity in behalf of women workers of her state has attracted widespread notice.

Mrs. Maria Krause Boelte of New York city holds the record for length of time as a kindergarten teacher. She has taught for half a century and is more enthusiastic now than when she began.

She was born in Mecklenburg-Schwerin in November, 1826. She was a protegee of Friedrich Froebel, the originator of the kindergarten system.

For thirty-nine years she has been teaching his system to American women in this country.

"Froebel looked upon woman as the true, natural educator of man," says Mrs. Boelte. "His conviction that education was the vocation of woman grew to the intensity of a faith in Froebel's mind, dominating his whole being. His faith proclaimed that woman had not a holier vocation than that of the education of man, and thus the idea originated with him to train women in normal classes for this divine mission."

"Education is the principle of kindergarten work, all things being developed one from another in progressive stages. All that seems merely play to the child has a definite purpose, and this is true throughout kindergarten work. The child by the intended uses of the kindergarten play and occupation also develops originality by the exercising of his power of invention."

"He learns concentration and a willing obedience. By being active his hands acquire alertness in the making of many things; he learns to use his eyes to compare, to observe and to imitate things that he sees around him every day; his mind is developed by the constant use to which it is put, and he acquires mental activity by producing and comparing forms. Thus by mere playing the child's manual, mental and moral activities are strengthened and his character development is considerably advanced."

Mrs. Boelte has just completed for the state department at Albany a pamphlet of the work, under the title of "Froebelian Kindergarten Principles." Her lectures have been attended by the principal educators in this country.

Miss Sarah Crahan of Toledo, Ohio, has been appointed attorney for the state and board. This is the first time in the history of Oregon that a woman lawyer has been appointed to represent the state.

After leaving the steps the men ran over to the auto and helping Clark in, Hoffman hastened to the City hospital, where Clark was treated.

The party, it is alleged, then returned to the City hospital.

Clark was treated at the City hospital. He was treated as an outpatient there and then went to the East End street station, where he made a complaint to the police.

Standard Hoffman, also a Harvard student, who lives in Randolph Hall, narrowly escaped a similar experience. Some of the acid struck his clothing, burning holes in it, but fortunately none of it went on his flesh.

Clark lives at 142 Westmoreland st., Cambridge, and is well known among the Cambridge students. Hoffman comes from a well-known New York family.

The affair in which the party of young men figured was brought about owing to the desire of Hoffman to have his friends meet three young men, who for the past six weeks have occupied a large front room in the house, 574 Massachusetts avenue, conducted by William H. Crapo, a member of the well-known Crapo family of New Bedford.

The alleged assailant of the young man was Mr. Crapo, and yesterday they went to the central municipal court and swore out a warrant for his arrest.

Mr. Crapo admitted last night that he had thrown sulphuric acid, but denied that the acid thrown was vitriol, as charged by the young men. Mr. Crapo said that he had thrown it to protect himself, his house and his lodgers against assault and disturbance.

According to the story told by Mr. Crapo, an automobile with five young men in it pulled up on the southern side of Massachusetts avenue directly under an electric light and diagonally across from his house shortly after 2 o'clock Sunday morning.

In a few minutes, Mr. Crapo said, there was a racket caused by one of the front room blinds being banged against the wall, and also loud shouts for "Evelyn." Finally a man who occupied a room on the floor below protested to Mr. Crapo that he was being annoyed and couldn't sleep.

Saw Young Man on the Steps

Mr. Crapo put on his bath robe and went out the basement door. Looking

up, he saw two young men on the top step and the three others on the lower steps. He asked them what they wanted and they replied they wanted to see Evelyn Wayne, who occupied the first floor room.

He told them it was no time for them to call and ordered them to leave. Mr. Crapo says that all he received in return was snickers and that the young men on the top step continued to bang on the wall with the blind.

Finally they left the premises, got into the automobile and went away. They were gone not more than an hour, he says, when they returned and the banging of the blind was resumed. Again Mr. Crapo went out to them, but this time, instead of going out by the basement, he went out of the steps by the front door and faced the intruders.

Mr. Crapo is 74 years old and has been in the hospital at various times. He is very nervous and his wife is in a similar condition.

Mr. Crapo, when he went out the second time had in one hand a cup of sulphuric acid. "What was I going to do to protect myself? I had no revolver and no club and I knew I would be powerless to throw myself against five young men," is the way he explained it last night.

"As I went out," he continued, "Clark was still holding on to the blind with one hand while with the other he was holding on to the building."

"I said to them you had better go away or else you will have to take the consequences, but they remained and jeered at me, calling me names and making threatening remarks."

Finally I made a movement with the cup and later I saw Clark put his handkerchief up to his face. He made no outcry. Some of the liquid fell on my stocking, making three holes in it and burning my foot somewhat. I went into the house, took off my stocking and bathed my foot with cold water and then went back.

"I could have taken out a pail of water to the young man, but if I had they probably would have set upon me and beaten me. At any rate they went off."

Take Clark to Hospital

After leaving the steps the men ran over to the auto and helping Clark in, Hoffman hastened to the City hospital, where Clark was treated.

The party, it is alleged, then returned to the City hospital.

Clark was treated at the City hospital. He was treated as an outpatient there and then went to the East End street station, where he made a complaint to the police.

Standard Hoffman, also a Harvard student, who lives in Randolph Hall, narrowly escaped a similar experience. Some of the acid struck his clothing, burning holes in it, but fortunately none of it went on his flesh.
